That at all times mentioned in these Articles of Impeachment, the above named Carlos S. Hardy was, now is, and ever since has been, a judge of the superior court of the State of California, in and for the county of Los Angeles.

That the said Carlos S. Hardy, a judge of the superior court of the State of California, in and for the county of Los Angeles, unmindful of the high duties of his office, is guilty of misconduct and misdemeanors in office, committed by him while in said office, and that the said Assembly of the State of California hereby exhibits and presents to the Honorable Senate Articles of Impeachment against the said Carlos S. Hardy, as a judge of the superior court of the State of California, in and for the county of Los Angeles, for the causes, upon the grounds and in the particulars as follows, to wit:

ARTICLE I

That at all times mentioned in this Article of Impeachment the Echo Park Evangelistic Association, Incorporated, was a corporation organized and existing under and by virtue of the laws of the State of California, and that at all times mentioned in this Article of Impeachment, Anna Sophie McPherson and one Minnie Kennedy were engaged in conducting a religious organization known as Anarchus Temple, Church of the Four Square Gospel, and divers and other sundry names, and other divers and sundry names and organizations not known to the members of this Assembly.

That between the first day of February, 1923 and the first day of April, 1927, the said Carlos S. Hardy, while then and there acting as a judge of the superior

to such disparagement and nonappearance of said Aimee Semple McPherson, and with jurors, members of the said panel above mentioned, and with reporters, journalists and publicity men employed on behalf of the said Aimee Semple McPherson and Minnie Kennedy to create public opinion through the press favorable to said Aimee Semple McPherson; and that said Carlos S. Hardy, using his position as judge of the said superior court, also directly for the purpose of creating favorable opinion for the said Aimee Semple McPherson and Minnie Kennedy, delivered public addresses over the radio and on the public platform, which were in character directly designed to create such favorable public opinion.

All of which services above specified, were performed by the said Carlos S. Hardy for a remuneration received by him, and in all of such acts, and during the time that each and all of them were performed, the said Carlos S. Hardy was a judge of the superior court of the State of California, in and for the county of Los Angeles, and during the year 1926, was actually presiding in one of the four departments of said superior court devoted to the trial of felony criminal cases; and by reason of which said facts, such acts so performed by him brought disrepute, obloquy and dishonor to the superior court of the State of California; and by reason of said acts the said Carlos S. Hardy has been guilty of misconduct and misdemeanors committed in office.

#### ARTICLE II.

That during the month of May, 1926, the said Aimee Semple McPherson mysteriously disappeared from the city of Los Angeles, State of California, and thereafter, on or about the twenty-second day of June, 1926, the said Aimee Semple McPherson reappeared in the city of Los Angeles, and publicly announced that she had been kidnaped, and during the time of her absence had been held for ransom; that meantime the grand jury of the county of Los Angeles, the district attorney of the county of Los Angeles and the said Carlos S. Hardy instituted several investigations into the facts and circumstances surrounding the alleged kidnaping and the absence from the said city of the said Aimee Semple McPherson, and the said grand jury of the county of Los Angeles and the district attorney of Los Angeles County further instituted investigations to determine the truth or falsity of the statement of the said Aimee Semple McPherson that she had been kidnaped, and the question of whether or not the said Aimee Semple McPherson and the said Minnie Kennedy had committed a felony under the laws of the State of California, which investigation later culminated in the filing of a complaint against the said Aimee Semple McPherson and Minnie Kennedy and others, charging them with the commission of a felony against the peace and dignity of the people of the State of California; that within a few days subsequent to the reappearance of the said Aimee Semple McPherson, the said Carlos S. Hardy received reliable information that the said Aimee Semple McPherson had not been kidnaped or held for ransom, and that notwithstanding his knowledge of the facts, disclosed by such information and the said investigations of the grand jury of Los Angeles County, and the district attorney of Los Angeles County, whom mentioned, and during said investigations, the said Carlos S. Hardy committed and performed the following described acts:

He counseled, instructed and directed attorneys employed in behalf of the said Aimee Semple McPherson and Minnie Kennedy, and with detectives employed in their behalf by the said Carlos S. Hardy, and with witnesses having knowledge, or alleging that they had knowledge of the facts pertinent to said investigations, or material to the question of whether or not the said Aimee Semple McPherson had been kidnaped and held for ransom.

Said Carlos S. Hardy further counseled, instructed and attempted to direct the action of grand jurors, members of the said panel above mentioned, and counseled, instructed and directed journalists and publicity men employed on behalf of the said Aimee Semple McPherson and Minnie Kennedy, to create public opinion through the press, favorable to the said Aimee Semple McPherson, and substantiating in the public mind and in the minds of the said jurors her claim that she had been kidnaped and held for ransom; and that the said Carlos S. Hardy, with knowledge of the facts, as aforesaid, and using his position as a judge of the said superior court, and relying thereon, delivered public addresses over the radio and on the public platform, in character directly designed to create such favorable public opinion and to create sentiment favorable to the said Aimee Semple McPherson in the minds of the said jurors aforesaid, and in the minds of citizens of the said Los Angeles County who might be called as trial jurors in event the said Aimee Semple McPherson was made defendant in a criminal action prosecuted by the people of the State of California.

That each and all of the acts above mentioned, had the effect of and did prevent, delay and obstruct a proper and unbiased investigation of the statement of the said Aimee Semple McPherson, and of the intention of preventing and obstructing a proper and unbiased investigation of the statement of the said Aimee Semple McPherson, that she had been kidnaped and held for ransom, by the said grand jury and the said district attorney, and with the intention of preventing and obstructing a proper vigorous and diligent prosecution of the said Aimee Semple McPherson, in the event it was determined by the said grand jury or the said district attorney that the said Aimee Semple McPherson had committed a felony under the laws of the State of California.

That each and all of the acts above mentioned, had the effect of and did prevent and obstruct a proper and unbiased investigation of the statement of the said Aimee

Aimee Semple McPherson, et al., and which said Wallace Moore had partially identified a woman in an automobile with one Kenneth G. Christman at or near the city of Santa Barbara during the time of the alleged disappearance of said Aimee Semple McPherson, vs. Aimee Semple McPherson, and that in said interview the said Carlos S. Hardy informed the said Wallace Moore concerning the crime of perjury and the danger of attempting to identify the woman he had seen as Aimee Semple McPherson, and the difficulty of being certain of accurate identification, and citing a case that had been tried before him, the said Carlos S. Hardy, whom the defendant, charged with burglary, had been convicted upon a mistaken identification, and further informed the said Wallace Moore that a person making a mistake in identification would be liable for damages to the person injured thereby, and that ten years thereafter, when he might have accumulated a fair fortune, if he had been instrumental in converting the wrong party, he might be sued by such party at any time during his lifetime; and of which conversations on the part of the said Carlos S. Hardy was intended by him, the said Carlos S. Hardy, to intimidate the said Wallace Moore as a witness who might be called in the case of People of the State of California vs. Aimee Semple McPherson, et al.; and that said conversation on the part of the said Carlos S. Hardy, was intended by him, the said Carlos S. Hardy, to suppress, modify, or render useless, the testimony of the said Wallace Moore as a witness in said case of People of the State of California vs. Aimee Semple McPherson, et al., all of which was misconduct and misdemeanor committed in office by the said Carlos S. Hardy, a judge of the superior court of the State of California, in and for the county of Los Angeles.

#### ARTICLE V.

That during the month of January, 1928, the case of the People of the State of California vs. Edward Hickman had been set for trial in the department of the superior court of the State of California in and for the county of Los Angeles, presided over by the said Carlos S. Hardy, and while he was a judge of the said court, he, the said Carlos S. Hardy, caused the seats provided for spectators in his court room in the hall of justice in the city of Los Angeles, county of Los Angeles, State of California, to be numbered and caused tickets to be printed and numbers endorsed thereon, said numbers corresponding to the numbers on the said seats, and which said tickets were stored for the various days during which it was contemplated that the case of People of the State of California vs. Edward Hickman would be on trial, and caused and permitted said tickets to be distributed to the friends of the said Carlos S. Hardy and of his wife, to the end that no persons except those provided with said tickets would be admitted to the court room during the trial of the case of the People of the State of California vs. Edward Hickman, contrary to a provision in the constitution of the United States of America and of the State of California, guaranteeing to all defendants the right of a public trial, all of which said acts on the part of the said Carlos S. Hardy were and are unlawful and misdemeanors committed in office by the said Carlos S. Hardy, and brought disrepute, obloquy and dishonor to the superior court of the State of California.

WHEREFORE, The said Assembly of the State of California, saving to themselves by protestation the liberty of exhibiting any other Articles of Impeachment against the said Carlos S. Hardy, as aforesaid, and also of the reply to the answers which he may make to the impeachment aforesaid, and of offering proof of the said matters of impeachment, do demand that said Carlos S. Hardy, a judge of the superior court of the State of California in and for the county of Los Angeles, be put to answer all and every of the said matters and that such proceedings, trial and judgment may be thereupon had and given as are conformable to the constitution and laws of the State of California; and the said Assembly is ready to offer proof of the said matters at such times as the honorable court for the trial of impeachment may order and appoint.

"Sec. 25g. All unpaid assessments shall be payable in such installments, not necessarily equal, as shall be annually determined by the legislative body which conducted the proceedings. Such unpaid assessments shall bear interest to the dates of maturity of the bonds issued against the same at the rate stated in the bonds. The city or county treasurer with whom the assessment is recorded shall annually prepare during the term of the bonds a statement of the amount of interest and principal, if any, which shall be payable upon said bonds on January two and July two of the next year, together with a statement of the total amount in the fund which may be used for the payment of said principal and interest, a statement of the amount in the funds derived from the assessments paid in full, if any, and a statement of the total amount of unpaid assessments not due.

Such statement shall be filed with the legislative body which conducted the proceedings at least two weeks before the first business day in August of each year. Thereafter said legislative body shall, prior to said first business day in August, call an installment of the unpaid assessment sufficient to pay the said principal, if any.

and, if the legislative body deems it advisable to provide an additional sum with which to call a bond, the balance it deems necessary to call such bond, and order the collection of interest on all unpaid assessments to July two of the next year. In addition to such installment of assessment and interest, and such balance deemed necessary to call a bond, if any, said legislative body shall levy such an additional percentage of the installment of assessment and interest as it may deem necessary to provide for anticipated delinquencies, not exceeding, however, fifteen per cent of the said installment of assessment and interest, and also one-fourth of one per cent of the total amounts shall be added thereto for costs of collection and shall be retained by the city or county making such collection, and all of said sums shall comprise and shall hereinafter be referred to as the "annual levy."

When the said legislative body shall have determined the annual levy as hereinbefore in this section provided it shall order the treasurer of the city or county, as the case may be, to prepare an assessment roll which shall describe separately each lot, piece or parcel of land within the district as the same appears on the assessment on file with said treasurer, the number by which the same is designated thereon; the name of the owner of each such lot, piece or parcel of land, if known, otherwise the word "unknown" shall be placed opposite the description of each such lot, piece or parcel; the total assessment against each such lot, piece or parcel as shown on the original assessment on file with the treasurer, the amount of the annual levy against each such lot, piece or parcel and the installments, if any, in which such amount is payable. No mistake in the name of the owner or supposed owner shall render the levy on any such lot, piece or parcel invalid.

If the assessment district is entirely within the boundaries of one municipality such assessment roll for said annual levy shall be filed with the city tax collector, except as hereinafter provided, and the amounts thereon shall be payable and be collected at the same time and in the same manner and become delinquent at the same time and with the same penalties as the general city taxes. In all other cases and in those cases in which county officers collect the general city taxes for the city in which such district lies, said assessment roll for said annual levy shall be filed with the county tax collector and the amounts thereon shall be payable and be collected at the same time and in the same manner and become delinquent at the same time and with the same penalties as general county taxes.

Notice of the amount to be paid on any lot, piece or parcel shall be given and in the discretion of the tax collector, may be given by a separate bill, to be sent with the general tax bill, or by a separate statement of such amount on the general tax bill, or the amount may be included in the total amount to be paid as shown on the general tax bill, with a statement on such general tax bill in substance that there is included in the amount to be paid as shown on such bill a sum for a direct assessment for acquisition and improvement district number \_\_\_\_\_ of the city (or county) of \_\_\_\_\_ (inserting proper designation). Failure to send or receive the tax bill or any informality or irregularity in same shall in no wise affect the validity of any penalty or any sale of any lot, piece or parcel for delinquency in the payment of the amount of such annual levy.

When any amount payable has become delinquent said amount and the penalties thereon may be paid to the treasurer prior to the date of sale as in this act provided.

All payments on assessments against which bonds have been issued, as provided in section 25d, together with all interest and penalties thereon and any additional levy to provide for anticipated delinquencies, shall be placed in a fund to be designated "acquisition and improvement district number \_\_\_\_\_ of the county (or city) of \_\_\_\_\_, direct assessment fund," and shall be used exclusively for the purpose of paying the said bonds, and the interest thereon.

If any assessment is fully paid prior to the maturity thereof, as provided in section 25j hereof, such portion thereof as is available for calling a bond shall be placed in a fund to be designated acquisition and improvement district number \_\_\_\_\_ of the county (or city) of \_\_\_\_\_, bond redemption fund, and any sum included in the annual levy for the purpose of calling a bond shall be paid into the said fund and the moneys in said fund shall be used to call a bond or bonds as herein provided. Such portion of the assessment paid in full as would have been included in any annual levy thereafter made, had such assessment not been paid in full, may be transferred to the direct assessment fund and used to pay principal and interest of bonds to be paid from such annual levy.

When said bonds and the interest thereon have been fully paid, any surplus remaining in said fund shall be repaid to the various property owners in the district in the percentages in which they paid into the total fund."

"SEC. 2a. Before any resolution of intention can be adopted under the provisions of this act, a report shall be made and action shall be taken thereon by the legislative body conducting the proceeding, as hereinafter herein.

The legislative body, which is to conduct the proceeding shall designate and order some city or county officer, or body, as the case may be, to prepare and furnish a report as in this section provided. The officer or body so designated must be one who will not receive any remuneration in connection with the proceeding, if subsequently carried out, unless it be as incidental expenses, payable to him or it for deposit in the public funds, by reason of his or its office.

Such report shall set forth the following matters with respect to the proposed proceeding: a statement of the assessed valuation of the lands proposed to be assessed in the proceeding (in case all the lands to be assessed are within one municipality, the last equalized assessment roll used by said municipality for general municipal tax purposes shall be used, and in all other cases the last equalized assessment roll of the county shall be used); a statement of the indebtedness of the said lands by reason of outstanding bonds against such lands issued to defray the expenses of acquiring or improving street or road areas, under special assessment procedure statutes of this state; a statement of the amount, if any, proposed to be contributed from public funds toward the proposed proceeding; and a statement of the total estimated cost of the proposed proceeding. In the event that said officer or body discovers, in the preparation of said report, that the total estimated cost of the proceeding, less any sum or sums to be contributed from public funds, shall, when added to the amount of the above described indebtedness, exceed one hundred per cent. for the estimated cost of an acquisition, and one hundred per cent. for the estimated cost of an improvement (or the combined percentages where both are included in a single proceeding) of the total assessed valuation, of the lands proposed to be assessed in the proceeding, as shown in said report (which shall constitute "an excess of the limitation," as that term is herein employed), then said officer or body shall include in such report a statement of his or its opinion upon the following matters: first, the total market value of the lands proposed to be assessed, estimated as of the date of the report; second, the reasons or necessity

for the proposed proceeding; third, the estimated total market value of said lands as the same will be upon the completion of the things proposed to be done in the proceeding; fourth, the feasibility of the proposed proceeding from the standpoint of the ability of the said lands to carry the burden of the proposed proceeding; and fifth, such other matters as may appear advisable to be included in said report. In reporting upon the outstanding indebtedness, as required above, in those cases where the proposed assessment district is not coextensive with other districts in which such bonds are outstanding, or where apportionment of a specific amount of indebtedness to each parcel of land has not been made, or where both such conditions exist, said officer or body shall estimate as fairly as possible, computing, where necessary, according to area or by such other method as to him or it shall appear most accurate, the bonded indebtedness of the lands in the proposed district by reason of such other bonds outstanding. In those cases where land which is owned and used in the performance of a public function, or land not assessed for purposes of general city or county taxes but subject to the payment of special assessments, or both such kinds of property, is included within the proposed district and such property is proposed to be assessed, such property shall be included in the computation and report as to the relation between the estimated cost plus the said bonded indebtedness and the assessed valuation; and in those cases where an assessed valuation of such land has not been made said officer or body shall estimate such assessed valuation as accurately as possible in accordance with the assessed valuation placed upon other lands of similar character in the proximity of such land.

In the event the proceeding is thereafter carried on the cost of making such report shall be included in the incidental expenses of the proceeding.

Upon the receipt of said report the said legislative body shall at its earliest convenience proceed to consider the same. It shall first determine whether the carrying on of the proceeding will constitute an excess of the limitation above set forth. If it finds, upon a consideration of said report and all other information presented to it, that said limitation will not be exceeded, it may proceed as in this act provided and adopt a resolution of intention. If it finds upon such a consideration that said limitation will be exceeded if the proposed proceeding is carried on, no resolution of intention shall be adopted unless said legislative body, by a two-thirds vote of its members, shall by resolution to be entered upon its minutes (which minutes shall show the name and vote of each member voting thereon) find that the proposed proceeding is feasible from the standpoint of the ability of the lands to be assessed to carry the burden thereof and that the circumstances warrant it in carrying out the proceeding, setting forth its reasons, in which case it may proceed.

The finding of the legislative body upon any and all of the above matters shall be final and conclusive, and shall not be open to contest or attack in any way, except in case of fraud.

Where a proceeding is carried on after the above provisions have been followed, upon the execution of a contract for an improvement or upon the filing of a complaint in court to condemn lands for an acquisition all actions attacking any of the proceedings, or any assessments, or any bonds, or any assessments or taxes levied to pay the same, based upon the exceeding of said limitation, shall be forever barred."

##### AMENDMENT NUMBER ONE.

Strike out lines 1, 2 and 3 of the title to the bill, and insert in lieu thereof the following:

"An act prescribing limitations on the amount of indebtedness which may be placed upon lands or real property for street improvements or street acquisitions; providing procedure therefor; the effect thereof, and the conditions under which said limitation shall apply."

Amendment adopted.

##### AMENDMENT NUMBER TWO.

Strike out lines 1 to 26, inclusive, on page 1 of the printed bill, and all of pages 2, 3 and 4 of the printed bill, and insert in lieu thereof the following:

"SECTION 1. Prior to the adoption of any ordinance of intention or resolution of intention to make any improvement of any street or acquisition of any street or any portion thereof under any statute of the State of California which provides that the cost of such improvement or acquisition, or any part thereof, shall be payable by an assessment upon lands or real property, the legislative body of the city or the county, as the case may be, conducting or proposing to conduct the proceedings shall proceed as herein provided.

The legislative body conducting the proceeding shall designate some city or county officer, as the case may be, who shall prepare a report showing the matters hereinafter stated. The officer so designated must be one who will not receive any remuneration in connection with the proceeding, if subsequently carried out, unless it be as incidental expenses, payable to him for deposit in the public funds, by reason of his office. The report shall show first, the assessed valuation of the lands to be assessed to pay the costs and expenses of the proposed acquisition or improvement, or both, as said valuation appears upon the last equalized assessment roll of the county. If an assessed valuation of publicly owned and used land or any other land has not been made, and the same is proposed to be assessed in the proceeding, the person preparing the report shall estimate the assessed valuation thereof as accurately as possible in accordance with assessed valuations placed upon other lands of similar character in the immediate proximity of such lands. The report shall show second, the outstanding bonded indebtedness of the lands proposed to be assessed, which shall include only bonds issued to defray the costs and expenses of acquiring or improving streets under special assessment procedure statutes of this state. In cases where the proposed assessment district is not coextensive with other districts for which bonds are outstanding, where apportionments of a specific amount of indebtedness to each parcel of land has not been made, or where both these conditions exist, he shall estimate as fairly as possible, computing, where necessary, by area or by such other method as may appear to him most accurate the bonded indebtedness of the lands in the proposed district or of the lands to be assessed for the proposed acquisition or improvement, or both, by reason of such outstanding indebtedness. The report shall show third, the total estimated cost of the acquisition or improvement, less the amount, if any, to be contributed from public funds, and if both are included in one proceeding the total estimated cost of each, less such contribution, shall be set forth and such estimate may be made by the officer preparing the report or shall be furnished to the officer by the city engineer or other person performing his duties, if the legislative body of the city is to conduct the proceeding, and by the county surveyor if the legislative body of the county is to conduct the

proceeding, or if a special engineer has been or is to be appointed, his estimate may be used.

If the officer preparing the report discovers in the preparation thereof that the total of the estimated cost and expenses of the proposed improvement, less the amount, if any, to be contributed from public funds together with such outstanding indebtedness, if any, will exceed one hundred per cent of the assessed value of the lands to be assessed or that the total of the estimated cost and expenses of the proposed acquisition, less the amount, if any, to be contributed from public funds together with such outstanding indebtedness, if any will exceed one hundred per cent of the assessed value of the lands proposed to be assessed he shall make an investigation and in his report state (a) his estimate of the total present market value of the lands to be assessed, (b) his estimate of the total market value of such lands after the proposed acquisition or improvement, or both, if both be contemplated in the proceeding, has been made and completed, (c) his opinion as to whether or not the proposed project is feasible and whether or not the lands proposed to be assessed are able to carry the burden thereof, and any other matters which he deems advisable.

Said report shall be signed by the officer making the same and filed with the clerk of the legislative body. In the event the proceeding is thereafter carried on the cost of making such report shall be included in the incidental expenses of the proceeding. Said legislative body, at its earliest convenience thereafter, shall consider said report.

If the total amount of the estimated cost and expenses of the proposed improvement, less the amount, if any, to be contributed from public funds together with said outstanding bonded indebtedness, if any, does not exceed one hundred per cent of the assessed value of the lands to be assessed, the legislative body shall so find.

If the total amount of the estimated cost and expenses of the proposed acquisition, less the amount, if any, to be contributed from public funds together with said outstanding bonded indebtedness, if any, exceed one hundred per cent of the assessed value of the lands in the assessment district, the legislative body shall so find. Until such finding is made the legislative body shall have no jurisdiction to adopt an ordinance of intention or resolution of intention in the proceeding, except that in the event the said limitation would be exceeded, the legislative body may so find and if said legislative body by a vote of two-thirds of the members thereof further finds that the proposed project is feasible and that the lands proposed to be assessed are able to carry the burden thereof it shall have jurisdiction to carry on the proceeding. The findings of the legislative body herein required shall be expressed by resolution entered on its minutes together with the names of the persons voting for and against the same.

The finding of the legislative body shall be final and conclusive and shall not be open to contest or attack in any way except in the case of fraud.

Where a proceeding is carried on after a finding made as herein provided that said limitation will not be exceeded, or findings that said limitation will be exceeded and that the proposed project is feasible and that the lands proposed to be assessed are able to carry the burden thereof, upon the execution of a contract for an improvement or upon the filing of a complaint in court to condemn lands for an acquisition, all actions attacking any of the proceedings, or any assessments or any bonds, or any assessments or taxes levied to pay the same, based upon the exceeding of such limitation, shall be forever barred."

Amendment adopted.

Bill read second time, ordered to print, and re-referred to Committee on Municipal Corporations.

#### EXECUTIVE DEPARTMENT, STATE OF CALIFORNIA.

SACRAMENTO, March 11, 1929.

*To the Members of the Senate and the Assembly.*

I am herewith transmitting to you the final report of the California Tax Commission—a body created by chapter 455, Statutes of 1927—to investigate the systems of revenue and taxation in force in this and other states, and particularly to examine into any and all matters appertaining to the subjects of receipts and taxation in this State. This portion of the Commission's investigation is embodied in Part One, as found on pages 11 to 132 of the report.

The same statute also specifically required the making of "a special investigation and report upon the matter of the relative burden of taxes borne by general property values and such property values as are taxed directly by the State under the existing system of taxation." The Commission's *Year Book* and illuminating discussion of this phase of the subject comprises Part Two of the report, and is printed on pages 133 to 241.

A final portion of the report concerns itself with the emergency problem of bank taxation with which practically every state in the Union is now struggling, and which California has solved in advance of the others by our recent constitutional amendment and bank tax legislation. Most of this portion of the report has already been transmitted to the Legislature by special message under date of September 4, 1928, but, in order to read it out, is here enclosed as Part Three, pages 243 to 291, and Part Four, pages 293 to 305. The latter was submitted on January 15 of this year, and contains the Commission's recommendation against a real estate offset to the proposed State franchise tax. This offset in a modified form, however, was subsequently granted by the Legislature.

The remainder of the report, and the portion which will probably receive the most intensive study is the general introduction, particularly as found on pages 4 through 9, and the summary of recommendations included in the preface under the roman numerals XXI to XXIV. The report as a whole, however, is exceedingly well worth reading, and its careful perusal will richly repay every legislator and every student of State finance.

#### WORK OF THE COMMISSION.

In presenting this report I should be remiss if I did not render proper acknowledgment to the California Tax Commission and its staff of experts for their faithful and untiring work in making possible its preparation. Many conferences and hearings in all portions of the State, a large number of meetings of the Commission itself, the continuous, daily labors of Mr. Irving Martin, president of the Commission, and other commissioners with whom he has been in constant contact—all these help fill out the picture of a very fine, unselfish public service.

This report of the Commission, which I am transmitting to you, is a fitting result of its endeavors. It must not be imagined that California is the only state which is wrestling with these problems of taxation. It is more than probable that a substantial majority of all the states, either through permanent or temporary tax commissions, are engaged in precisely similar work; but it is also probable that this report of California's Commission will be pronounced as outstanding among them all. In fact, it will unquestionably take rank as one of the best and most comprehensive taxation studies ever made.

I would particularly call attention to the large number of statistical and financial tables with which the report is interspersed. These will be found of almost incalculable value, whether use of them is made this year or in future years. Many of these tables, occupying only a single page in the report, obviously must have taken weeks of preparation. Through their use any tax revision, whenever undertaken, may be based on solid fact, rather than on guess-work or theory. The money value of the Commission's activities in helping to save our past and future bank taxes,

should be secured by an increased license fee, as the Commission proposes, or some other plan shall be evolved which will permit the tax to be paid at the same time the license is issued. It should be kept constantly in mind that whatever form of tax replaces the present unsatisfactory personal property tax on automobiles, or whatever method of tax collection may be employed, the proceeds, as at present, are entirely for local and not for State uses. At all events, this is something which can be attended to at once.

The third group of recommendations concerns a reduction in the taxes of insurance companies and an adjustment and reduction in inheritance taxes, so as to conform more nearly to similar taxes in other States. The type of these reductions can be effected partly, and the amount wholly, without a constitutional amendment. If both things were done, the State would have nearly \$4,000,000 a year more, which would have to be compensated for by other tax adjustments.

This brings us to group number two, comprising a major tax change which the Commission recommends as an ultimate objective, but which it does not propose send the people have had full opportunity to study it and to express themselves clearly upon it. This is the abolishment of personal property taxes, and the substitution of a personal income tax based on ability to pay. Regarding this, however, the Commission says, "It would be advisable to propose the adoption of a personal income tax in advance of the development of a selling public sentiment in its favor. Such a tax requires a full assent, even an enthusiastic assent from the taxpayers, if it is to be successfully administered. In the face of that such action would be premature, the Commission does not at this time propose the legislation of a personal income tax." However, it does propose a careful study, and this, at least, would appear a reasonable request.

Now we come to the major tax change included under number one which the majority of the Commission would immediately like to see enacted as either a constitutional amendment, and to which the Legislature is respectfully referred. As shown above, this is the virtual abolishment of the so-called "Constitutional Amendment No. 1," and would mean our State reversion to an ad valorem State tax on all property, rather than by a gross receipts tax on public utilities as at present. Meanwhile the operative real estate and public utilities would be subject to tax both by the State and by local subdivisions, on a valuation to be fixed by a central assessing body. Finally, the personal property taxes of public utilities would be abolished, and be supplanted by a business tax based on net income, as in the case of other corporations.

#### WHEN A MAJOR TAX CHANGE SHOULD BE MADE

I believe that anyone who studies the Commission's report will agree that the time is coming when we must devise some other tax system to take the place of the one created by "Constitutional Amendment No. 1." The thing for the Legislature to determine is whether the change should be attempted now, or whether it should be preceded by a more thorough public discussion and a more pronounced public demand.

I would suggest that a Tax Commission might perform extremely valuable service during the next two years, not only through a discussion of tax problems and tax systems in various portions of the State, but also by carrying out the recommendations of the present Commission as expressed on page 4 of their report, in which attention is called to "the advisability of making a study of public expenditures to ascertain what, if any, limitations on such expenditures may be imposed, and what economies may be made, in the public interest." The Commission further advises that this survey of public expenditures should include those of counties and municipalities, as well as of the State, and that the findings of this investigation should be reported to the Governor and the Legislature.

After all, the real purpose of any tax revision must be the reducing of the tax burdens of the ordinary taxpayer, rather than the mere creation of any new tax system. The taxpayer at the present time especially feels the weight of the local taxes which he has to pay; and if by a change in the system an ad valorem State tax were to be added, I feel that he would want to be convinced that there would be absolute certainty of a corresponding reduction in his county or city or school district taxes. If in spite of the wider local tax base only moderate reductions were made, it might easily transpire that the new local tax plus the new ad valorem State tax might together constitute a tax burden greater than now exists. I believe that a plan can be devised by which a genuine tax reduction may be safeguarded; but I am wondering if such a plan should not be thoroughly worked out before any major change in our tax system is attempted.

Whatever plan is finally adopted, it will fail of its purpose if it does not succeed in lightening the tax burden upon the property of the average taxpayer. Real estate and the improvements thereon are ever visible to the local assessor, and in consequence now bear more than their just share of the load. The man who has worked and saved for many years, and has put the results of his labor into a home or a farm, finds that the tax collector is taking more from him than from his more prosperous neighbor who has put his money into investment securities of various kinds. Some way must be found to compel that neighbor to pay his share of the cost of

government, to the end that the burden upon the home owner may be correspondingly lightened. The Tax Commission believes that the only way to give adequate relief to the existing tax burden on visible property is to provide for a tax on persons, based on their prosperity and ability to pay. It may be well to defer any major tax revision until the people of the State can thoroughly study into this report of the Commission, and can determine for themselves how this spread of the tax burden may most justly and equitably be accomplished.

#### READJUSTMENT OF PUBLIC UTILITY TAX RATES.

On the assumption that a constitutional amendment might be proposed by the present Legislature, doing away with the present gross receipts taxes on public utilities, no revision of their rates was suggested by the Commission in the report, although the need for such revision is clearly shown. If, however, the Legislature decides not to recommend a major change in the tax system at the present time, I would submit that there should at least be a readjustment of public utility tax rates, especially in view of the fact that no readjustment or revision has been made during the past eight years. This suggestion by no means implies a second "King Tax Bill" contest, since the very splendid studies included in Part Two of this report have given us a basis of accurate knowledge as to comparative tax burdens which was altogether wanting at the time of the King Tax Bill. Heads of public utilities have been kept in touch with the computations of experts during the preparation of the report, and have generally expressed themselves as agreeing to the substantial fairness and accuracy of these figures.

As may be seen in the table on page 185, and in numerous other places of the report, as compared with \$1.79 or \$1.81, which the Board of Equalization has determined to be the tax burden on common property, the tax burden on the properties of certain public utilities is distinctly too high, just as on those of some others it is clearly too low. I am satisfied that public utilities have no desire to evade their fair share of the tax burden, and that, in view of the very carefully compiled existing data, no resistance will be offered to such moderate readjustment as the Legislature may see fit to make.

#### NECESSITY FOR THIS READJUSTMENT.

Aside from the mere equalizing of tax burdens, there is great present necessity for a readjustment of public utility rates, since the net increase of revenues coming from such readjustment is needed to offset the loss we are sustaining through changes in our tax system. For instance, in the note on page 244, the experts of the Commission figure that through the liberalizing of the franchise tax law and the addition of the real estate offset, there will be produced about \$2,300,000 less revenue per year than had been anticipated, or approximately \$2,300,000 less than our present revenues. Computation has shown that a fair and reasonable readjustment in public utility gross receipts rates will almost exactly make up for this loss of revenue.

Moreover, if we are to make the recommended changes in insurance and inheritance tax rates, this will mean an additional loss of nearly \$2,000,000 per year. But there is still another expense which I believe we should undertake, and for which we must clearly have additional income in order to prevent our surplus from being too rapidly used up. I refer to a moral obligation to come to the aid of certain counties which have been suffering from an undue tax burden, owing to the continued operation of "Constitutional Amendment Number One," and the consequent removal from the local tax base of the operative property of public utilities.

These counties have a large proportion of operative property in comparison with the rest of the property in the county, and when this is withdrawn from taxation other property in the county has to pay a correspondingly higher tax rate. I accordingly would suggest a constitutional amendment to provide that a certain limited portion of our State surplus shall be allocated to these counties on the basis of the relative proportion which the value of their operative property bears to property which is nonoperative. While it is probably true that such allocation can not meet the relative deserts of these counties with mathematical exactness, I am of the opinion that some formula may be devised by which substantial justice may be done.

#### CONCLUSION.

In concluding this message, I would again call attention to the long and faithful labors of the California Tax Commission, and to the excellence of their thoroughgoing and very valuable report. I can not too strongly commend to you a careful study of this report, for I am satisfied that such study on the part of yourselves and the public will suggest the basis of a future tax system so well founded that its permanence may be assured. Tax systems are not built up in a day. Even that embodied in "Constitutional Amendment Number One" was six years in the making; yet I imagine there are few who believe that to retain this as our permanent system would be wise. In working out a new system, however, I am satisfied that this report, with its thorough analysis and carefully prepared tables, will give us a foundation to build upon which we have never had before.

Meanwhile I would recommend that this Commission be continued with augmented personnel and powers, not to repeat the excellent technical study and investigation which has already been made, but rather to get into direct touch with public sentiment on the subject of taxation in all portions of the State, and to bring into one picture more thoroughly than has yet been done the whole subject of interrelated State and local taxation and expenditures. These questions are becoming large in every state of the Union, but in California this is especially true, owing to our exceedingly rapid growth and the necessarily continuous increase in governmental expense which this growth entails. I believe that such a study, continued for two years more and based upon the achievements of the past two years, will point the way to a State tax system, not only sound and permanent, but, in addition, so coordinated with the problems of local taxation as to insure that the total tax burden upon our people may be far better adjusted and very materially lightened.

Respectfully submitted

C. C. YOUNG, Governor.

#### SENATE JOINT RESOLUTION No. 8.

##### Relating to the Federal Income Tax Law.

WHEREAS, Just and equitable taxation is a matter of paramount importance to all American citizens; and

WHEREAS, It is apparent that grave injustice results from the failure of the Federal Income Tax Law to properly differentiate between earned incomes and unearned incomes; and

WHEREAS, An earned income is the measure of value of service rendered by the worker to the community and unearned income is the measure of value received by the individual from the community, and earned incomes are thus received in return for service of any sort—mental or physical—as distinguished from incomes from investments or from property; and

WHEREAS, It is apparent that wealth received by an individual who did not create it should bear a heavier tax than wealth received by an individual who did create it; and

WHEREAS, To tax earned income heavily is to penalize thrift and industry, and is a direct tax on labor and tends to retard enterprise and achievement; therefore, be it

*Resolved by the Senate and Assembly of the State of California, jointly,* That the President, the Secretary of the Treasury and the Congress of the United States be hereby memorialized and urged that a reduction of fifty per cent be made in the tax rate on earned incomes below the tax rate on unearned incomes; and be it further

#### ASSEMBLY JOINT RESOLUTION No. 3.

Relative to memorializing Congress to adopt a bill to provide compensation in lieu of taxes for the several states with respect to certain lands of the United States within the borders of said states, and for other purposes.

WHEREAS, There has been introduced a bill in the House of Representatives of the United States, which provides: "That the United States Government hereby assumes, subject to the conditions of this act or any subsequent act of Congress, the payment to the several states of sums of money equivalent to the amounts which such states would receive from the taxation of said lands of the United States within their respective borders if such lands were owned by individuals"; and

WHEREAS, Under an act of Congress of the United States approved March 3, 1891, large areas of territory with the timber and other resources thereon and therein were "set apart, reserved and withdrawn from entry" in the states of California, Oregon, Washington, Idaho, Montana, Wyoming, Colorado, Utah, Nevada, Arizona and New Mexico and in a lesser degree in several of the other states of the Union; and

WHEREAS, The United States government has withdrawn, set apart and reserved within permanent national forests 18,891,161 acres of land within the State of California, approximating one-fifth of the total land area of the State, said lands being set apart, withdrawn from entry and reserved for the purpose of conserving the resources thereof and particularly the standing timber thereon for the benefit of future generations of mankind; and

WHEREAS, The lands of the United States above referred to, comprise in several of the counties upwards of one-half of the area within the borders of the counties, and, although exempt from annual taxation, are being put to commercial and industrial uses for the benefit of all the people of the United States, which fact places these lands on the same basis, as to use, as privately owned lands used for the same purpose, and said lands of the United States are in competition with said privately owned lands, and the setting aside, reserving and withdrawing from entry of these large areas of territory in the sparsely settled forest counties and on which the United States pays no taxes, results in throwing a heavy tax burden on privately owned property in the same political subdivision of government thus making the financing of local government a difficult problem indeed; and

WHEREAS, This area is not and can not be taxed by any of the 39 counties of California wherein this vast domain is situated, although each of said counties is required to and do perform therein and thereon all necessary and requisite police powers, equip, maintain and operate schools; equip, maintain and operate courts for the punishment of offenders against the forest and other laws; construct, repair

and maintain trails, roads and bridges and to do and perform such other acts, duties and powers as may be necessary to the enjoyment of such forests by the people of the United States as well as of other nations; and

WHEREAS, When state government was instituted and the several states admitted into the Union they were divided into counties, and townships and each of the states, counties and townships were guaranteed the full right of enjoyment of all the territory and resources within their respective borders and the declared policy of the United States government being to dispose of all the public domain, and Article X of the declaration of rights, which formed the basis for the union of the states provides that "No state shall be deprived of territory for the benefit of the United States." In setting apart, reserving and withdrawing from entry 10,000,000 acres of land for national forest purposes within the boundaries of a single state, surely territory has been taken from that state for the benefit of the United States, and

WHEREAS, The following clause is contained in the enabling act of every state admitted into the Union, beginning with Ohio in 1803: "The state when admitted shall be on a basis of equality with the original states in all respects whatsoever." Therefore all political subdivisions of government should be on a basis of equality, which makes it necessary for all to contribute on a basis of equality to the solution of all problems of national necessity (and we deem the national forests to be such a problem), and if in so doing it becomes necessary to take territory and resources from some of the subdivisions of government and "set apart, reserve or withdraw" the same from entry for the benefit of all the others, then those benefited should join in reimbursing the subdivisions of government from which the territory and resources were taken, otherwise there can be no basis of equality; and

WHEREAS, The Congress of the United States has enacted legislation known as the "exchange bills," and under the provisions of said law, private owners are enabled to exchange cut-over lands for standing timber lands on the basis of the United States; and since said law has become operative, private owners have availed themselves of the right granted to them under said law and have conveyed hundreds of thousands of acres of such lands to the United States and have received in exchange, hundreds of millions of feet of standing virgin timber from the United States; and as a result of the operation of such laws, many counties in which such exchanges have been made or in which such exchanges were hereafter to be made, have had or will have taken from them and removed from the assessment rolls of such counties, many thousands of dollars in assessed valuation; and in addition to this loss of assessed valuation such counties are losing the percentage which they would receive were a sale made instead of an exchange; and as United Forester, Chief Forester of the United States, has said of this law, "The forest counties lose both going and coming"; and

WHEREAS, The Congress of the United States has enacted the so-called Clark McNary Law, and under the provisions of section 7 of said law, private owners are enabled to donate or devise to the United States lands chiefly valuable for the growing of forests, the private owner reserving the timber, mineral, grazing and other rights and when so conveyed become a part of the National Forest Reserve and not open to entry or taxation, and should timber owners in some of the counties in several of the western states exercise their just right under this law, and convey their said lands to the United States, thus taking from the assessment rolls of the counties the immense valuation involved and the right of taxation, it will result in putting many of the forest counties of the west out of business, because such counties will be unable to raise sufficient revenue to maintain county government, and if such counties are annexed to a nonforest county in the same state the county to which it is annexed will receive not an asset but a liability; and

WHEREAS, It is only just and right that a heavy burden of local taxation should not be placed annually on the people of any state in which, and by reason of the fact that, extensive areas of territory having great national resources, guaranteed to them in the beginning and later legislated from them, have been set apart, reserved and withdrawn from entry for the economic use and benefit of all of the people of the United States, and we believe that if the government of the United States can not afford to finance its national forests, then in right and justice it should not expect the sparsely settled forest counties to do so for it; now, therefore, be it

*Resolved by the Assembly and Senate, jointly.* That the Legislature of the State of California approves of the purpose of the bill referred to and respectfully requests its support and adoption, by the Congress of the United States at the earliest possible date; and be it further

*Resolved.* That any moneys to be paid to the State of California, by the United States under the provisions of any law enacted by the Congress of the United States, based on forest values of the forest counties of California, shall be divided among said forest counties in proportion to the forest values fixed by the United States Bureau of Public Roads; *provided*, that by the term "forest counties" is meant those counties of California, a part of which are in the present national forests; and *provided, further*, that any portion of the timber sale, grazing or other receipts of national forests returned by the federal government to the State of California, are excepted herefrom; and be it further

*Resolved.* That the Chief Clerk of the Assembly of the State of California be authorized and directed to transmit copies of this resolution by mail to the Governors of the states of Oregon, Washington, Idaho, Montana, Wyoming, Utah, Nevada,

Colorado, New Mexico and Arizona with the request that similar action be taken by their respective legislatures; and be it further

*Resolved*, That the Chief Clerk of the Assembly of the State of California be authorized and directed to transmit copies of this resolution by mail, to all the members of the Congress and Senate of the United States.

#### MESSAGE FROM THE GOVERNOR.

The following message from the Governor was received, read, and ordered printed in the Journal:

#### MESSAGE ON HIGHWAYS.

EXECUTIVE DEPARTMENT, STATE OF CALIFORNIA.

March 12, 1929.

*To the Members of the Senate and the Assembly.*

In the message transmitted to you at the opening of the present legislative session, and again in the message accompanying the budget, there was discussed the importance of our State highway system to the prosperity and growth of California. In these messages the following statement was made relative to the inclusion of new roads in the state system:

"At this time it will be necessary to establish some policy relative to the inclusion of new roads within the State highway system. There is a certain 'orphan' section of highway which, by error in description, by oversight, or through other fault, was not included in the State system when the parent roads were designated as State highways. This probably should be annexed to the present system at once. It comprises about five miles. But aside from this I am very doubtful whether other additions can be made just now without disrupting our entire highway program.

There are certain other roads, now a part of county highway systems, that are largely devoted to State rather than local uses. These roads clearly have prior rights to become a part of the State system, when that system is expanded. The question now is as to when such transfer should take place. I would suggest to the Director of Public Works that during the next two years he make a comprehensive traffic study of those county highways in California which now serve as arterial highways, or of routes not now in the State system of probable arterial value, to determine what roads should be added to the system, and the order in which they should be added as determined by State use and traffic needs, together with an estimate of the probable time when such roads can be included in the State system without imposing an impossible burden on that system.

No Governor should be asked or expected to sign a bill providing for the extension of the State highway system, except upon recommendation of the Department of Public Works—a recommendation in its turn based upon a careful study of traffic requirements and highway use, in line with the broad general policy of long-time planning. Any other plan will break down our program of highway construction and will savor of political expediency rather than of safe and business-like procedure. Whatever policy may be adopted must be based on traffic and not political pressure."

#### POLICY FOR INCLUSION OF NEW ROADS.

Having thus recognized that there are unquestionably roads which should be added to the State system, and having suggested a study of these roads during the next two years, it becomes necessary to adopt a policy which at the earliest possible moment may afford relief to those localities where county roads, due to the large volume of State traffic using them, have in effect become State roads, thus throwing an undue maintenance burden upon the counties in which these roads lie. It is only fair and proper that this situation be corrected through a gradual expansion of our secondary road system.

Accordingly I would suggest that by resolution the Legislature direct that a study of this problem be immediately begun in order to determine:

(1) Roads not now in the State highway system, which, in the opinion of the California Highway Commission and the Department of Public Works, should properly be included in it;

(2) The extent to which there is a lack of balance which prevents a well-ordered and unified system, and the manner in which such lack of balance may be corrected;

(3) A study of the State highway system, which will give information regarding the cost of bringing the system up to a stage where traffic on our highways is adequately and economically served;

(4) The extent to which highways may be added in the next two years to the State system without unduly jeopardizing existing and future maintenance and construction funds; and

(5) Some method by which these maintenance and construction funds may as soon as possible be made available for the new roads that may be added to the State system.

I think we would all agree that, considering the many hundreds of miles of unimproved and undeveloped roads in our existing State highway system, we should not add new roads to that system in any careless or haphazard way. I think we would agree that before a road is added a traffic and economic study should determine its necessity, and a survey as to rights of way, grades, economy of construction, and the like, should determine its location.

I think we would also agree that new roads should not be added more rapidly than they can be adequately cared for. Money spent on these new roads can be expended only on the theory that they are more immediately important to the State than other roads in the existing system whose development might thereby be postponed. I am of the opinion that the California Highway Commission and the Department of Public Works are justified in their belief that at the present time a mileage increase of approximately 10 to 12 per cent, or between 650 and 800 miles, is about all the system can safely stand.

#### NECESSITY OF EQUALIZING SECONDARY MILEAGE.

I think we would agree that in developing our highway system we must do justice to all sections of the State. The Breed law, in allocating gas tax funds, proportioned the amounts given to primary roads in the northern and southern portions according to the primary mileage in these two sections these being roads of state-wide interest and importance. For the secondary roads, however, an equal amount of funds was given to the north and to the south. I believe that the best interests of the State will be served by maintaining this equality of allotment.

However, the present highway system as built up during previous administrations included only 525 miles of secondary roads in the southern counties as against 1778 miles in the north. This means that whereas the north has 1778 miles over which to spread its allotment of secondary highway funds, the south has only 525 miles on which to use an equal allotment, thus requiring that, until this lack of balance is adjusted by taking in other roads which may qualify for a place in the State system, there must be an uneven development of the secondary system in the two ends of the State.

No one, I am sure, would wish to disturb the equal allotment of funds to northern and to southern secondary roads. It is obvious, therefore, that an unsatisfactory condition will exist until the present great disparity in secondary mileage is reduced. The Highway Commission assures me that on the basis of preliminary investigations it is also obvious that, in the 10 to 12 per cent increase referred to above, they must of necessity recommend the addition of three or four times as much mileage in the south as in the north. This addition will be confined to the secondary system and by so doing it will more nearly equalize the secondary mileage in the State.

#### UNDISPUTED FAIRNESS OF SOUTHERN POSITION.

I have noted certain newspaper accounts which would seem to indicate that it is proposed to change the present equal allocation of funds to northern and to southern secondary roads. Nothing can be further from the facts, since neither south nor north seeks to disturb this wise provision of the Breed law. The only change suggested is a rather generous increasing of the 525 miles of southern secondary roads until they shall more nearly approach in extent the 1778 miles of secondary roads in the north.

Fortunately no one wants to precipitate a conflict between the two ends of the State. The south is not asking for a single dollar additional for the construction or reconstruction of its secondary road system. It is asking, however, for an increased secondary mileage over which to spread the allotment which it now receives; and I have yet to meet a friend of good roads, in the Legislature or out of it, who considers this an unreasonable request. It is not right that, with practically equal traffic and almost equal area, one end of the State should continue to have nearly three and one-half times as much secondary mileage as the other; and that the latter, owing to this limited mileage, must continue to convey its equal traffic so largely over locally maintained county roads.

On one point, however, I must reiterate what I have already quoted from my biennial message, that we must see to it that no extensions whatever shall be made to the State highway system except after careful study and survey on the part of our highway engineers. To do otherwise would be to include roads which afterwards we might all regret, just as we now regret hundreds of miles which without sufficient study were long ago unwisely included in our present highway system. Having made this mistake once, we must not make it again. Even for the roads which are included we must make certain of the engineering data which shall make each

of them the very best road possible for the community which it serves. The Highway Commission and Department of Public Works have indicated that they are prepared to commence this work at once, thus assuring that the necessary new secondary roads shall be promptly added. I thoroughly approve of this, and also approve of the ratio by which it is proposed to begin the correction of the very indefensible disparity of secondary mileage in the two ends of the State.

Nevertheless, while this disparity is gradually being corrected, the study as proposed must ultimately include every road in every section of the State whose probable right to a place in the State system can be demonstrated. Thus from time to time other roads will be added, both north and south, until our secondary highway system is complete. This, when finally brought about, must be only through the admission of roads on which such adequate study has been made, and whose right to a place in the secondary highway system can not be disputed.

#### PROMPT INCLUSION OF NEW ROADS INSURED.

It only remains to discover a method by which, when new roads are recommended to the Legislature for adoption into the system, these roads may share in construction and maintenance funds as speedily thereafter as possible. In other words, if these roads are not formally adopted until the next legislative session, how can they be included in the proposed highway budget made just previous to the beginning of that session?

While it might be questioned whether authority can be delegated to a highway commission actually to "adopt" new roads into the system without legislative ratification, the Highway Commission can, at least, after proper study, submit those to the Legislature and include them in its proper highway budget, thus making certain that they can be cared for as State highways two years from next July.

By this procedure no time will be lost in providing for the construction and maintenance of the new roads thus to be taken into the system. The highway budget for the present biennium is already made up, but these roads will go into the next budget, will be recommended in my next biennial message, and beyond the shadow of a doubt will be formally ratified by the next Legislature. Meanwhile, with entire justice to every section of the State, we shall have established the principle that roads shall be added to our highway system, not through political pressure, but as the result of an impartial, unbiased study of our highway needs. This will also give to the members of the Legislature supporting data for the roads in which they are interested and which they may hereafter seek to have added to the system.

#### BASIC PRINCIPLES FOR HIGHWAY CONSTRUCTION.

I feel very strongly that the time is now ripe, and the opportunity here, to formulate a policy and establish a precedent that will govern future additions to the State highway system upon the basis of their ability to qualify as of State importance. This policy and precedent may be tersely stated as providing that expert study by State authorities must precede, rather than follow, the inclusion of roads into the State highway system.

In conclusion, permit me to call your attention to the fact that our major highway problems have been solved in a substantially satisfactory manner, with the exception of the method by which additions to the State highway system shall be made. The greatest contribution that this Legislature can make to our highway system is to formulate a policy of highway extension that will give to the system its necessary and proper measure of protection.

I feel that a program outlined in a concurrent resolution, embodying by reference what I have tried to express in this message, is one in which friends of good roads all over California can join. I feel also that this is a most happy time for the formulation of these principles, since at this particular time our action will not jeopardize the interest or delay the improvement of any road in any section of the State.

Respectfully submitted.

C. C. YOUNG, Governor.

#### ARTICLE II.

That during the month of May, 1926, the said Aimee Semple McPherson mysteriously disappeared from the city of Los Angeles, State of California, and

That each and all of the above acts and declarations of the said Carlos S. Hardy, done and made between the first day of May, 1926, and the first day of April, 1927, were committed with the intention of preventing and obstructing a proper and unbiased investigation of the statement of the said Aimee Semple McPherson, that she had been kidnaped and held for ransom, by the said grand jury and the said district attorney, and with the intention of preventing and obstructing a proper vigorous and diligent prosecution of the said Aimee Semple McPherson, in the event it was determined by the said grand jury or the said district attorney that the said Aimee Semple McPherson had committed a felony under the laws of the State of California.

That each and all of the acts above mentioned, had the effect of and did prevent and obstruct a proper and unbiased investigation of the statement of the said Aimee Semple McPherson, that she had been kidnaped and held for ransom, by the said grand jury and the said district attorney; and each and all of said acts did obstruct the prosecution of the said Aimee Semple McPherson when she was later charged with a felony, and the said complaint charging the said Aimee Semple McPherson with the commission of a felony was dismissed upon motion of the district attorney of Los Angeles County, after preliminary examination and a holding by the committing magistrate that the said Aimee Semple McPherson and others be held to answer in the superior court of the State of California, in and for the county of Los Angeles for a felony committed by said Aimee Semple McPherson and the other defendants in said action.

(g) That it does not appear therein, nor can it be ascertained therefrom that any of the acts attributed to defendant were done with corrupt or partial or malicious or other improper motives and or with knowledge that they were wrong.

(h) That it does not appear therefrom why, at the most, the actions charged against this defendant do not constitute mere judicial error.

(i) That it does not appear therefrom why this honorable Senate, sitting as a Court of Impeachment, can not take judicial notice of the facts that said Edward Hickman was lawfully charged, tried, and convicted of a capital offense against the peace and dignity of the State of California, and that he, the said Hickman, appealed his conviction to the Supreme Court of the State of California where the conviction was sustained, and that he, the said Hickman, attempted to appeal to the Supreme Court of the United States which refused to entertain the appeal, and that he, the said Hickman, has been lawfully executed pursuant to law.

Wherefore, this defendant prays that he be dismissed hence.

## PRESENTATION OF PETITION.

The following petition was presented, and ordered printed in the Journal:

By Senator Mueller:

HOLLYWOOD, CALIFORNIA, March 18, 1929.

*Senator Mueller, Judiciary Committee,  
State Capitol, Sacramento, California.*

We understand a public hearing on Daylight Saving Bill being held tonight at State Capitol by Judiciary Committee. We ask that you consider the ill effect of such a law if passed. It will seriously affect the employment of thousands in the industry. Theatre loss of revenue will mean curtailment of production at studios with a resultant decrease of employees in every branch at all studios. Those affected most seriously will be people of small earning capacity. California today is prosperous and happy and unemployment at a minimum. Why disturb this splendid situation?

## MESSAGE FROM THE GOVERNOR.

The following message from the Governor was received and read:

*To the Members of the Senate and Assembly.*

In accordance with the provisions of section 34, article IV of the State constitution, I propose at this time three additional amendments to the budget and the Budget Bill as originally presented to you on January 7, 1929. One of the items is for an increase of \$20,000 in the amount set forth in the budget for emergency flood protection and rectification of river channels in cooperation with other agencies. The provisions of the federal appropriation for cooperation under the "Curry Bill" will not be sufficient for this for the coming two years. We were without this information at the time the budget item for this purpose was considered.

At the time the budget for the University of California was being considered, a request was made that \$150,000 be included for the erection of an insectary and laboratory at the citrus experiment station at Riverside. At that time it did not seem possible to include this item in the budget. A very definite showing of facts has since convinced us that a part of this improvement should be provided for in the coming biennium, and I therefore recommend that an amount of \$25,000 be added to the item for permanent improvements in the budget for the University of California.

The third item is for an increase in the support appropriation for the office of the Attorney General. The Attorney General requested an additional allowance of \$25,000 to provide for needed deputy attorneys to properly handle the volume of work assigned to his office. After a conference the increase requested was reduced to \$20,000.

The detail list of the changes is as follows:

## INCREASES.

Page 9, Attorney General, support.....	\$20,000
Page 164, Department of Public Works, special items, for emergency flood protection and rectification of river channels.....	20,000
Page 207, University of California, insectary at Citrus Experimental Station at Riverside.....	25,000
Total.....	\$65,000

Respectfully submitted.

C. C. YOUNG, Governor.

The above message referred to Committee on Finance.

##### SENATE CONCURRENT RESOLUTION No. 19.

Relative to the orderly addition of new roads to the State highway system, after engineering and economic studies by the California Highway Commission and the Department of Public Works.

WHEREAS, It appears that some highways not now in the State highway system are carrying a volume of State traffic that far exceeds the local traffic carried on said roads thus placing upon the counties in which these roads are located an undue and heavy maintenance burden; and

WHEREAS, A preliminary investigation by the California Highway Commission and Department of Public Works indicates that there is at the present time a decidedly greater mileage of such roads in the south, as compared with those in the north, carrying this excessive State traffic; and

WHEREAS, An executive message was transmitted to the Legislature under date of March 12 in which was suggested certain underlying principles to be observed in the inclusion of new secondary roads within the State highway system; now therefore be it

*Resolved by the Senate, the Assembly concurring.* That the principles enunciated in said executive message be observed in the inclusion of new roads within the State highway system, and that the California Highway Commission and the Department of Public Works be, and they are hereby directed to observe the following principles in the inclusion of new roads within the State highway system.

1. Additions shall during the next two years be made to the present secondary highway system, totaling between 10 and 12 per cent of existing State highway mileage, said mileage to be added in the ratio of not less than three or four miles in the south to one mile in the north.

2. For budgetary purposes, this mileage shall be included as a part of the State highway system by the California Highway Commission when the necessary surveys are completed; *provided, however*, no money be expended on same until they have been finally included in the system by legislative act.

3. There shall be no change in the present statutory division of secondary highway funds; and, be it further

*Resolved*, That the California Highway Commission and the Department of Public Works be and they are hereby directed to make a careful study of the State highway system to ascertain and determine routes not now in the system which, either by reason of the large volume of State traffic that they are now carrying, or by reason of the relief that they would afford to heavy traffic upon present State highways, or as highways serving as important interstate links, might properly be included and added to the State highway system; and be it further

*Resolved*, That this study shall, in accordance with the above mentioned executive message, include an investigation into the engineering, economic and traffic facts involved in the matter; that a comprehensive report shall be made to the forty-ninth Legislature embodying such recommendations as the investigation may disclose as proper and a recital of such facts as may have been taken into account; that this investigation shall begin not later than May 1, 1929, and that this report shall be completed and made public not later than August 1, 1930, and that pending the adoption of such report authority be hereby given to the California Highway Commission to take into consideration for its next budget such roads as it is thus designating and bringing to the attention of the Legislature at its next session.

#### COMMUNICATION.

The following communication was received, read, and ordered printed in the Journal:

GOVERNOR'S OFFICE, SACRAMENTO, March 19, 1929.

*Honorable H. L. Carnahan,  
State Senate, Sacramento, California.*

DEAR MR. CARNAHAN: The time is near when bills in rapidly increasing volume will be coming to me for executive action. In fairness to their authors, I naturally wish to examine these bills as promptly as possible. Will you, therefore, be good enough to present this communication to the Senate?

As was the case last session, I shall need a written explanation of each bill, since it is manifestly impossible to remember oral explanations of so many different measures. Last time, however, these explanations were not attempted until after final passage, at which time the author was so busy that I frequently did not hear from him at all, or far more briefly than would have been the case had the explanation been made at the time the bill passed in the house of its origin, and was consequently fresh in mind.

May I ask, therefore, that each member of the Senate some time this week hand to Mr. Whitmore, Mr. Carlin, or Mr. Kennedy, an explanation of each of his bills which has thus far passed the Senate, and that as bills pass in the future a similar explanation be handed in. If any of these bills is hereafter materially changed in the Assembly, a supplementary explanation can describe such change.

May I ask that the following suggestions be observed in preparing these explanations:

1. Please discuss each bill on a separate sheet of paper, in order that the statement may be filed away with the particular bill which it explains.

2. Each statement should set forth fully the purpose and object of the bill, its necessity, the forces which are back of it, the condition which it is designed to correct, and the like.

3. I should also appreciate receiving such communications from others regarding the bills as the members are willing to have filed with the bill in this office. This request also extends to all bills in which any Senator is interested, either for or against, as well as to his own measures. These latter will be of great value, but the explanations of the author as set forth in "1" and "2" above are absolutely essential to any adequate study of the bill.

My only desire is to give to every bill the fullest and most sympathetic consideration. It is manifestly impossible, however, to do full justice to so many measures unless I am helped out by securing all possible information regarding each, aside from what can be gleaned from the mere text. I wish to thank the members in advance for the kind cooperation they will give me in this matter.

Yours very sincerely,

C. C. YOUNG, Governor.

#### RECESS.

"SECTION 1. The Legislature hereby declares that the purposes of this act are to promote, encourage, and and protect the agricultural interests of the State of California, which have in any way to do with agricultural seeds as sold, or purchased or seeded or planted and to establish a responsibility upon the part of any person, firm, association or corporation who sells, for commercial seeding or planting, within this state, any such agricultural seeds; that it believes these purposes can best be accomplished by providing an official committee to investigate and recommend to the interested parties or to any court in this state the fair and equitable responsibility to be borne by the seller, the purchaser or between the seller and purchaser of such agricultural seed in dispute, as such responsibility may relate to the factors of mechanical purity, germination and inherent quality of such agricultural seed. The Legislature hereby declares the recognition of the accepted practices which enable the seed analyst to determine mechanical purity and germination by proper laboratory methods and likewise the recognition that inherent quality is an intangible factor to determine and does not admit of measure or analysis by known laboratory methods except as such agricultural seeds may be grown under field conditions to the mature plants.

The Legislature hereby declares the recognition that the producer of agricultural crops may be seriously injured and sustain important financial losses if his choice of a crop has been made and the seed which he purchases does not prove to be of the mechanical purity, of the germination or of the inherent quality as represented by the seller of such agricultural seed from whom he purchases; and likewise the recognition that important financial losses may be sustained by the seller of agricultural seeds if such claims are established unwarrantedly.

Sec. 2. Certain terms as used in this act are hereby defined as follows:

(a) "California seed law of 1921" means the act entitled "An act for the prevention of the adulteration or mislabeling of agricultural seed, providing for the indicating of the purity and viability thereof, and prescribing penalties for violation of the provisions hereof," approved June 3, 1921, as the same now exists and from time to time is amended.

(b) The words "agricultural seeds," means all domesticated grasses, cereals, legumes such as alfalfa, sweet clover, red clover, crimson clover, alsike clover, white clover, field peas, cow peas, beans, soy beans, and vetches, garden seeds and the seeds of all other crops that are or may be grown commercially on a field scale in this state, not including flower, or sugar beet.

(c) The word "label," means a tag or label affixed in a conspicuous place on the exterior of a package or other container, plainly written or printed in the English language in type not smaller than seven-point, or if written to be of permanent black ink.

(d) The word "committee" whenever used in this act shall be held and construed to mean the state seed arbitration committee.

SEC. 3. Any person, firm, association or corporation who sells, offers or exposes for sale for planting or seeding purposes within the state, any lot of agricultural seed shall sell same as herein provided:

(a) Each lot of agricultural seed must be labeled in full accordance with the provisions of the California seed law of 1921.

(b) If in the transactions relating to the sale of any agricultural seed, any additional information is given supplementing the label requirements of subsection (a) of section 3 of this act, which additional information makes any claim or representation as to a definite species, variety, type, strain, or selection, the person, firm, association or corporation selling such agricultural seed must deliver the seed as represented in so far as species, variety, type, strain, or selection can be determined by the exercise of reasonable care and diligence.

SEC. 4. Agricultural seeds shall be exempt from the provisions of this act:

(a) When possessed, exposed for sale, or sold for food or manufacturing purposes only.

(b) When sold to merchants to be recleaned before being sold or exposed for sale for seeding purposes.

(c) When in store for the purpose of recleaning, or not possessed, sold or offered for sale for seeding purposes within the state.

(d) When sold in packages or bulk of less than five pounds.

SEC. 5. A state seed arbitration committee is hereby created to consist of three members as follows:

(1) The director of the department of agriculture of the State of California, or an assistant whom he may designate;

(2) The head of the division of agronomy of the College of Agriculture of the University of California, or an assistant whom he may designate;

(3) A representative of the seed merchants of California, which representative shall be selected by an assembly of seed merchants of this state in a meeting called in session by the director of the department of agriculture of the State of California. At this assembly a first and a second alternate representative of the California seed merchants shall also be selected. Each representative so selected shall be a bona fide seed merchant in California and so selected that no two of these representatives are financially interested by ownership or employment in any same seed merchandising firm, corporation or association.

(4) Should a dispute arise as to whether or not any seed delivered was as represented by the information given on the label as required under subdivision (a) of section 3 of this act or given by any other means or represented by additional information given, as provided for under subdivision (b) of section 3 of this act, any party to the transaction may bring his dispute for investigation before the state seed arbitration committee which is herein provided for; *provided, however*, that as a prerequisite to such an investigation the person requesting such an arbitration shall, upon making such request, deposit with the secretary of the committee twenty-five dollars to be applied toward the expenses of the investigation.

SEC. 6. No member of this committee will be eligible to serve on an investigation of dispute in which he or the firm, association or corporation, by which he is employed, is an interested party. Whenever the person, firm, association or corporation with which the seed trade representative is connected, is an interested party in dispute, brought before the committee, then the first or second alternate representative shall serve on the committee for the investigation and recommendations of such dispute, whichever one of whom is not an interested party.

SEC. 7. Members of the committee will serve without pay appointments enduring two years from the date of appointment; *providing*, that the member and alternates representing the seed merchants will hold appointments at the pleasure of the seed merchants of the state as expressed by their organizations. Vacancies will be filled as they occur.

SEC. 8. It shall be the duty of the committee:

(a) To investigate, hold hearings or in any way obtain the facts of any dispute as described in this act, which may be brought before it for investigation.

(b) After an investigation has been completed to recommend to all interested parties an equitable basis for settlement as determined by the committee.

(c) If the interested parties can not agree on a settlement and an action is filed in relation to such transaction in any court in this state, to present the record of these findings to the court.

(d) To investigate each dispute on its own merits and not be guided by precedents of other findings.

(e) To select from its membership its chairman and secretary and formulate necessary rules of conduct and procedure for carrying out investigations.

(f) To keep a complete record in duplicate of all hearings, investigations, conclusions and recommendations of disputes brought before it for investigations. One

copy of such records to be filed at the department of agriculture of California and one to be filed at the College of Agriculture of the University of California. Such files to be open to any citizen of this state. The file of any dispute may be destroyed four years after it is closed.

SEC. 9. The committee shall have power:

(a) To subpoena witnesses and take testimony under oath.

(b) To employ such clerical assistance as may be necessary to carry out the purposes of this act.

(c) To fix the compensation and determine the duties of such employees as shall be necessary.

(d) To perform such travel on state expense as may be necessary to make investigations.

SEC. 10. There is hereby appropriated out of any moneys in the state treasury, not otherwise appropriated, the sum of two thousand dollars (\$2,000.00) for carrying out the purposes of this act. All moneys collected under the provisions of this act shall be paid into a special fund in the state treasury to be known as "seed arbitration fund" which fund is hereby created. All moneys in the seed arbitration fund shall be used for the purposes of carrying out the provisions of this act.

SEC. 11. If any section, subsection, paragraph, sentence or clause of this act is for any reason held to be invalid, the Legislature hereby declares that had it known of the invalidity of that portion at the time of this enactment, it would have passed the remainder of this act without the invalid portion and that it is the intention of the Legislature that the remainder of this act operate in the event of the invalidity of any portion of this act.

##### AMENDMENT NUMBER TWO.

On page 1, line 1, of the printed bill, beginning in said line 1, strike out all of lines 1 to 3, inclusive, and all of pages 2 to 5, inclusive, and insert in lieu thereof the following:

"SECTION 1. It is hereby declared to be the policy of the State of California to acquire and own all privately owned toll bridges situate upon or along any part of the highways of the state, with the end in view of ultimately eliminating all toll charges thereon.

SEC. 2. The department of public works of the State of California is hereby authorized and empowered to acquire real estate, bridges and approaches thereto, and such other property, rights and franchises as may be useful in connection therewith, and to do all of the things provided for in this act, for and in the name of the State of California.

The term "department of public works", when used in this act shall be construed to mean the department of public works of the State of California.

The term "bond" when used in this act, either in the singular or plural, shall be construed to mean any bond or other written evidence of indebtedness which the department of public works may issue under this act in order to secure money with which to carry out the purposes of this act.

No officer or employee of the department of public works shall have any interest in, or association, either direct or indirect, with any person or with any corporation.

firm, company, association or partnership who or which may have any interest whatever in building or acquiring any toll bridge in this state, or in the sale or purchase of any bonds that may be authorized by this act.

SEC. 3. The department of public works is hereby empowered to build, purchase and acquire for the State of California bridges and approaches thereto across waters, bays, arms of bays, straits, rivers and streams in California, both navigable and unnavigable, or across any stream that is a boundary line between California and any other state, whenever in its opinion it may be necessary or desirable so to do, and to pay for the same out of any fund provided for or made available by this act. The department of public works is hereby empowered to acquire by gift, by purchase, or by eminent domain proceedings any bridge, franchise, rights, privileges, easement, or other property either real or personal, that in its opinion may be necessary, useful or helpful in ultimately eliminating toll charges on bridges in the State of California.

SEC. 4. When the department of public works can not acquire any bridge, or the real or personal property, franchises, rights, privileges or easements needed for bridge or approach purposes, by agreement with the owner or owners, it shall be lawful for the department of public works, and said department is hereby authorized to condemn and take any such bridge, real estate or personal property, franchises, rights, privileges or easements deemed necessary for such bridge or approach thereto, under the provisions of the laws of this state relating to eminent domain proceedings. But said department shall not have power to commence any such proceedings in eminent domain unless and until the director of the said department of public works shall first have made and issued an order declaring that public interest and necessity require the acquisition, construction or completion by the state acting through the said department of public works of any such bridge, real estate or personal property, franchises, rights, privileges and easements and that such bridge, real estate, or personal property, franchises, rights, privileges and easements are necessary therefor. Such order shall be conclusive evidence (a) of the public necessity of such acquisition, construction or completion; (b) that such property and said franchises, rights, privileges or easements are necessary therefor; and, (c) that such proposed acquisition, construction or completion is planned or located in a manner, which will be most compatible with the greatest public good and the least private injury. When it becomes necessary for the department of public works to condemn any bridge, real estate, personal property, franchises, rights, privileges or easements used or to be used in connection with any bridge, the attorney general of the state shall represent the department of public works, and shall, upon his request, be assisted by the district attorney of the county or the city attorney of the city or county wherein lies the bridge, real estate or personal property, franchises, rights, privileges or easements sought to be acquired, and by the attorney for the department of public works. In eminent domain proceedings to acquire property for any of the purposes of this act any bridges, real property, franchises, rights or other property appurtenant to any such bridges already appropriated to a public use by any person, firm or private corporation may be condemned and taken, and the acquisition and use thereof as herein provided for the same public use to which such property has been so appropriated or for any other public purpose, shall be deemed a superior and permanent right and necessity, and a more necessary use than the public use to which such property has already been appropriated.

SEC. 5. Whenever the department of public works determines that it is advisable or necessary to acquire, either through eminent domain proceedings or otherwise, any existing privately owned toll bridge or bridges and the approaches or other property, franchises or rights appurtenant thereto, or, when the department of public works determines that it is for the best interest of the public highway system of the state that a new toll bridge be constructed and operated by the state, the department of public works shall cause to be issued revenue bonds secured as to the redemption thereof and the payment of interest thereon only by the tolls collected from the operation of any such bridge. Bonds of any such issue shall be sold from time to time as need for such acquisition or construction arises, and also to pay interest on outstanding bonds of any particular issue during the period of actual construction of any such bridge or bridges. The amount of bonds to be issued for such acquisition or construction shall be determined by the department after estimates of the costs thereof have been made and after deductions from such estimates have been made for money, property, materials or labor contributed from other sources are considered. All such bonds shall be issued in the name of the State of California and shall indicate clearly on their face that they are secured both as to principal and interest only by the tolls or other revenue received from the operation of the particular bridge or bridges for the acquisition or construction of which the bonds were issued. All bonds issued under the terms of this act shall be negotiable instruments under the law merchant. The department of public works shall determine the form and conditions of all such bonds, the time and order of maturity thereof, and the rate of interest thereon, which interest rate shall not be in excess of six (6%) per cent per annum, and may also provide for the earlier redemption of the whole or any particular amount of the bonds

of any particular issue under conditions to be expressed on the face of the bonds so issued. No bonds authorized under this act shall be sold for less than the par value thereof plus the interest which has accrued thereon between the date of sale and the last preceding interest maturity date. All such bonds issued shall be signed by the director of the department of public works of the State of California and by the state treasurer. The signature of the state treasurer may be by facsimile. All interest coupons shall bear the facsimile signature of the state treasurer but need not bear the signature of the director of the department of public works. All such bonds shall bear the facsimile signature of the state treasurer who holds that office at the time any particular issue of bond is authorized by the department of public works as herein provided and shall be signed by the director of the department of public works who holds that office at the time of the issue and sale of any such bonds. If the department of public works, in its judgment, should deem it advisable so to do it may couple two or more bridges under one contract and under one bond issue, and the tolls or revenues derived from such bridges built or purchased under the one bond issue shall be used for the redemption and the payment of the interest charges on bonds issued on account of all of the bridges so coupled in one contract or under one bond issue.

SEC. 6. The department of public works, through its own engineers or through such other engineers or experts it may employ, shall design all bridges to be built under the authority of this act, and may build the same or any portions thereof either by its own employees or by contract with any person, firm or corporation. The cost of any or of all such bridges shall be paid from the proceeds of bonds issued and sold under the provisions of this act, or from contributions or appropriations from other sources as herein provided. Any such bridge or bridges or portions thereof shall be built by the department of public works under and in accordance with the provisions of an act entitled "An act to regulate contracts on behalf of the state in relation to the erection, construction, alteration, repair or improvement of any state structure, building, road or other state improvement of any kind and to repeal an act entitled 'An act to regulate contracts on behalf of the state in relation to erection and buildings,' approved March 28, 1876," approved March 22, 1909, and amendments thereto," in so far as the provisions of said act may be made applicable; *provided, however*, that the amount of the cash or certified checks required to accompany any bid submitted, when bids relating to the construction of any bridge are called for, shall be fixed and determined by the department of public works.

SEC. 7. The department of public works is hereby empowered to charge and collect tolls and to fix the rates thereof for all toll bridges acquired or built under the terms of this act. Toll charges so fixed may be changed from time to time as conditions may warrant. The department of public works in establishing toll charges shall give due consideration to the cost of operating and maintaining such bridge or bridges and to the amount required annually to meet the redemption of bonds and interest payments thereon, and also to appropriations or contributions from other sources to aid in meeting any such payments. The tolls so fixed shall never be less than sufficient to meet the estimated operating and maintenance expenses, and all redemption payments and interest charges of the bonds issued for any particular bridge or bridges. All tolls collected shall be deposited in the state treasury and credited to the particular bridge or bridges for which bonds were issued. The state treasurer shall make monthly credits from the tolls so collected and deposited to a special fund sufficient to adequately meet the requirements for bond redemption and interest charges of the particular bond issue for the ensuing year. Receipts so credited shall not be available for any other purpose all until all bonds of the particular issue are redeemed.

SEC. 8. When any of the bonds issued under authority of this act become due and payable redemption thereof shall be made out of the tolls collected from the particular bridge or bridges for which such bonds were issued, or from such other contributions or appropriations as may be made under the terms of this act. The good faith of the State of California is hereby pledged to give its moral support to the payment of both principal and interest of said bonds, but neither the payment of the principal or any interest thereon shall be or constitute a debt or a general obligation of the state. The interest on said bonds shall be paid semiannually and on the first day of January and the first day of July of each year. Bonds issued under the provisions of this act shall be free from state, county and municipal taxation.

SEC. 9. All bonds issued under or by authority of this act shall be sold to the highest and best bidder after such advertising for bids as the department of public works may deem proper. The said department may reject any and all bids made for such bonds.

SEC. 10. Any city, county, city and county, incorporated city or town, or joint highway district may, upon the request of the department of public works, advance or contribute money, rights of way, labor, materials and other property toward the expense of building, acquiring and maintaining the bridges referred to in this act, and for preliminary surveys and the preparation of plans and estimates of cost therefor, and appropriations for such purpose may be made from any funds available,

including highway funds received from the state. Any of the political subdivisions or public corporations mentioned in this section may also issue general obligation bonds for any of such purposes, and all proceedings for the authorization, issue and sale of such bonds shall be had under the law governing the issue and sale of bonds for public improvements by the particular political subdivision or public corporation. Money or property so advanced or contributed may be immediately transferred or delivered to the department of public works to be used for the purpose for which such advance or contribution was made. The department of public works may enter into a binding agreement with any city, county, city and county, incorporated city or town, or joint highway district to repay any money or the value of any rights of way, labor, materials or other property advanced or contributed toward the expense of acquiring or constructing any bridge acquired or constructed as provided for in this act; *provided*, no repayment therefor shall be made until all obligations issued by the department of public works for the acquisition or construction of any such bridge have been fully redeemed and paid, and then only out of the toll revenues received from the operation of such bridge. After all bonds issued hereunder for the acquisition or construction of any bridge have been fully redeemed and paid such bridge shall become a free public bridge, and no further tolls shall be collected thereon unless, because of some extraordinary casualty or calamity or unusually heavy maintenance required, the department of public works shall determine it necessary to continue for a longer period the collection of tolls on such bridge; and also unless the said department shall determine to continue the collection of tolls for the purpose of repayment to any city, county, city and county, incorporated city and town, or joint highway district of any amount the department of public works shall have theretofore agreed to repay for money, rights of way, labor, materials or other property advanced or contributed for the acquisition or construction of such bridge.

SEC. 11. When any privately owned toll bridge is acquired or the location of any toll bridge to be constructed under this act is determined upon, and revenue bonds of the character herein provided have been issued and sold for such acquisition or construction, no city, county, city and county, joint highway district, bridge and highway district, or other public corporation or district of the state shall build or authorize the building of any bridge, subway or other highway crossing or establish or authorize the establishment and maintenance of any free ferry across the same body of water within five miles on either side of any such bridge so acquired or the location of any such bridge to be constructed under this act, nor shall the department of public works build any additional bridge, subway or other highway crossing or establish any free ferry within said distance of five miles until all of said revenue bonds issued for such acquisition and construction, together with interest thereon, shall have been paid or provision made for their payment; and *provided further*, that no city, county, city and county, joint highway district, bridge and highway district or other public corporation or district shall build or authorize the building of any bridge, subway or other highway crossing or authorize the establishment of any free ferry within a distance greater than five miles and less than fifteen miles on either side of any bridge acquired or constructed or for which bonds may have been issued under this act without the approval and consent of the department of public works, which approval and consent may be withheld in the discretion of said department when the department reasonably determines that the establishment of such additional bridges, subways or other highway crossings or ferries would be competitive with any toll bridge acquired or constructed or to be acquired or constructed under this act; *provided, further*, that the limitations as to distance contained in this section shall not apply to the construction of any bridge which may hereafter be built across the Golden Gate from the city and county of San Francisco to the county of Marin by the Golden Gate bridge and highway district, organized and incorporated under the provisions of an act entitled "An act to provide for the incorporation and organization and management of bridge and highway districts and to provide for the acquisition and construction by said districts of bridges and approaches thereto, and for the acquisition of all property necessary therefor, and also to provide for the issuance and payment of bonds by said districts, for the levying of taxes and the collection of tolls by said districts and for the annexation of additional territory thereto" (approved May 25, 1923) and all amendments thereto, or any bridge which may hereafter be built across said Golden Gate between the city and county of San Francisco and the county of Marin. If the department of public works shall acquire or construct any toll bridge designed for and limited to the carrying of a particular class or particular classes of traffic, or issue bonds therefor, the construction of other bridges designed for and limited to the carrying of different and distinct classes of traffic shall not be deemed competitive, and the limitations as to distance contained in this section shall not then apply. The provisions of this section relating to restrictions against the construction of competitive bridges, ferries, subways and other highway crossings may be recited in said revenue bonds as and as evidence of a contract to that effect between the State of California and the holders of said revenue bonds. The department of public works may except any existing or proposed bridge, ferry, subway or other highway crossing from the limitations as to distance within which another bridge, subway or other highway

crossing may be constructed by the proceedings authorizing the issuance of said revenue bonds provided recital of such exceptions is made on the face of said bonds.

SEC. 12. Nothing in this act shall be construed to prevent the state from making appropriations from time to time in aid of the acquisition or construction of any such toll bridge or bridges, or property, franchises or rights appurtenant thereto, or for the purpose of making preliminary surveys, plans and estimates of the cost thereof, as the Legislature may deem proper.

SEC. 13. Any city, county, city and county, incorporated bridge and highway district, or joint highway district may by proper resolution of its governing body petition the department of public works requesting said department to acquire or construct any toll bridge or other toll highway crossing across any waters, bays, arms of bays, rivers or streams wholly within, or bordering upon, or wholly without the limits of any such political subdivision or public corporation herein mentioned, and in the event said department does not within two years thereafter institute the proper proceedings to acquire or construct, or sooner refuses to acquire or construct said toll bridge or other toll highway crossing under the provisions of this act, then any such city, county, city and county, incorporated bridge and highway district or joint highway district, either singly or in conjunction with other cities, counties, cities and counties, incorporated bridge and highway districts or joint highway districts, may acquire or construct such toll bridge or other toll highway crossing, subject however, to the limitations of section 11 of this act relative to the building of bridges in competition with bridges acquired or constructed by the department of public works under this act.

SEC. 14. Any bonds which shall be issued under the provisions of this act shall be legal investments for all trust funds, and for the funds of insurance companies, banks, both commercial and savings, and trust companies; and for state school funds; and whenever any money or funds may by any law now or hereafter enacted be invested in bonds of cities, cities and counties, counties, school districts or irrigation districts within the State of California, such money or funds may be invested in the said bonds issued under this act and in accordance with its provisions; and whenever bonds of cities, cities and counties, counties, school districts or irrigation districts within this state may by any law now or hereafter enacted be used as security for the performance of any act or the deposit of any public moneys, the said bonds issued under this act and in pursuance of its provisions may be so used.

SEC. 15. The department of public works is authorized to enter into agreements with steam and electric or other railroad or transportation companies for the use of portions of such bridges at such charges or tolls as may be mutually agreed upon should the department consider such agreements advisable or necessary for the financing of such bridges, and for the best interests of the state.

SEC. 16. The department of public works is further authorized to acquire, and construct hereunder by contract or otherwise, tubes and tunnels in connection with said bridges if it deem the same advisable, and all of the provisions of this act shall be fully applicable thereto and they shall be understood to be included within the word "bridge" or "bridges".

SEC. 17. When any such bridge is being built by the department of public works directly and not by contract, the said department may carry a reasonable amount of casualty insurance or protect itself from loss or damage by indemnity bond or bonds; the said department, in its discretion, is further empowered to carry a reasonable amount of insurance to cover any accident or destruction in part or in whole to any bridge until the same has been fully paid for and used only as a free bridge.

SEC. 18. The right of way is hereby given, dedicated and set apart upon which to locate, construct and maintain bridges or approaches thereto or other highway crossing through, over or across any of the lands which are now or may be the property of this state, including highways. If any property belonging to any city, city and county, or incorporated city or town is required to be taken for the construction of any such bridge or approach thereto, or should any such property be injured or damaged by such construction, such compensation therefor as shall be agreed upon may be paid by the department of public works to the particular city, city and county, or incorporated city or town owning such property.

SEC. 19. If any section, subsection, sentence, clause or phrase of this act is for any reason held to be unconstitutional, such decision shall not affect the validity of the remaining portions of this act. The Legislature hereby declares that it would have passed this act and each section, subsection, sentence, clause and phrase hereof, irrespective of the fact that any one or more sections, subsections, sentences, clauses and phrases be declared unconstitutional."

district, and the probable cost and expense thereof, and to make a report thereof as hereinafter provided, in which connection said board may use and adopt all previous estimates, surveys, reports and other data it may have acquired or which are available to it, adapted to that purpose, and may employ all necessary engineers, attorneys and other assistants for the accomplishment of said purposes, and the cost thereof shall be deemed a part of the expense of said project, and such board may issue warrants therefor, which shall be payable out of the funds of said district and may be included in any bond issue authorized for the purposes of said district.

If the board of directors proposes to acquire any property of any kind or character, or any interest or easement therein for the purposes or use of said water storage district by purchase or lease, or in any manner other than by condemnation proceedings, that fact shall be stated in their said report and a true copy or copies of the instrument or instruments evidencing such acquisition of such property, interest or easement therein, or the right to acquire same shall be made a part of said report.

No property of any kind or interest therein belonging to any water corporation which is a public utility, shall be acquired by a water storage district, nor shall any such properties of such public utility be included in the report of the directors in this paragraph provided for, unless and until the railroad commission of California shall have first made its order authorizing such sale and such abandonment or curtailment of service by such public utility as would result from the acquisition by said water storage district of said properties of such public utility.

A certified copy of any order of authority so made by the said railroad commission shall be made a part of and filed with said report of said board of directors, and unless such order of the railroad commission in effect binds and declares that such sale and such abandonment or curtailment of service of such public utility through the acquisition of such properties by the water storage district will be to the interest of the consumers of such public utility and that the terms and conditions of such acquisition of such properties of such public utility by the water storage district is fair, just and equitable to the consumers of such public utility, such report shall be deemed insufficient for any of the purposes of this act.

Said board of directors may at their option segregate and divide the plans, specifications and estimates of cost into one or more units of construction, and may in said plan provide that one or more individual units of construction shall not be entered upon immediately, but shall be authorized and undertaken in such order and at such future time as the board of directors shall thereafter determine. Upon the completion of said examination and study of the proposed project by the said board of directors, the said board shall prepare and file in the office of the state engineer, and a true copy thereof in the office of the secretary of said board, a report thereof, in which said report shall be set forth in full and in detail the character and nature of the proposed works, a description of the rights both to waters and lands it will be necessary to acquire to carry said project to completion, accompanied by detailed plans and specifications, and a detailed estimate of the cost of said project, including the acquisition of all rights, necessary to the completion and operation thereof. The board of directors shall attach to said report a recommendation that said project shall be carried out in accordance with the plans and specifications in said report contained, or that said project be abandoned. Such report when completed shall be signed by a majority of the board of directors, and entered in full upon the minutes of said board. If said board shall determine to segregate and divide the plans, specifications, and estimates into more than one unit of construction, such plans, specifications, and estimates shall be complete as to each unit, and the board shall in its report specify the particular unit or units the construction of which shall be immediately entered upon and the particular unit or units reserved for future action.

If the board of directors of any district organized under this act shall fail, neglect, or refuse to complete and file its said report within six (6) years from the date of the filing of the order of the state engineer declaring said district duly organized as provided in section 11 hereof, the project of said district shall be deemed abandoned and the board of directors thereof shall within ninety (90) days thereafter, pay all outstanding debts and claims against said district and shall within said time remit to the assessment payers of said district in proportion to the amount paid by said assessment payers on the last call or assessment levied by said board of directors, the balance of any funds then remaining with the treasurer of said district or to its credit with the county treasurer or county treasurers within which the lands of said district are situated.

SEC. 3. Section 18 of said act is hereby amended to read as follows:

SEC. 18. If the said board of directors recommends that said project be abandoned the state engineer shall make such further investigation of said project as is in his judgment desirable and shall within sixty days after the filing of said report make and enter upon the records kept by him an order either (a) approving and confirming the said report and recommendation and declaring said project abandoned, which said order shall be without prejudice to the presentation of another petition covering the same matter, or (b) approving and adopting the said report but taking no action with respect to the said recommendation, and calling another election to be held in the district for the purpose of determining whether or not the recommendation of said board of directors shall be adopted or rejected. In the event the said order so made and entered by the state engineer shall call an election, said state

engineer shall within thirty days after the entry of said order give notice of such election. Said notice shall be published once a week for at least three weeks previous to such election in each county in which any land in the district is situated. Said notice shall require ballots to be cast, which shall contain the words "Completion of project—Yes" or "Completion of project—No." For the purposes of said election the state engineer must establish a convenient number of election precincts in said district and define the boundaries thereof and said state engineer at the time of calling said election shall in his order designate voting places and appoint three land holders of the district to act as a board of election at each voting place. Such election shall be conducted as nearly as practicable in accordance with the provisions of this act relating to general water storage district elections, but no particular form of ballot shall be required. The qualification of voters at said election shall be the same as prescribed for the original election on organization of district, and the votes cast at said election shall be canvassed in the same manner as votes cast at said original election, and the result of such election shall be declared and entered of record in the minutes of the board. If such result shall show more than one-third of all the votes cast are "Completion of project—No" (or that more than one-third of the qualified voters who voted at said election voted "Completion of project—No") the state engineer shall make and enter in his records an order declaring said project abandoned, and requiring all persons, except the holders of warrants issued pursuant to the provisions of this act and which have been duly presented for payment, having claims against said district, or proposed district, to file them with the necessary vouchers within three months from the making of said order in the office of said state engineer. Notice of said order requiring presentation of claims stating the time and place thereof shall be published in the county in which the office of the district is located by said state engineer once a week for four successive weeks, the first publication of which said notice shall be made within ten days after the making of said order. After all warrants issued under the provisions of this act which have been duly presented for payment and all claims that have been duly presented and have been allowed and approved by said state engineer or the board of directors of said district, have been paid, said state engineer shall forthwith cause a copy of said order declaring said project abandoned, duly certified by said state engineer, to be filed for record in the office of the county recorder of each county in which any portion of the land embraced in said district is situated, and from and after such filing said district shall be deemed dissolved and all liens which may have attached to any of the lands therein under any provisions of this act shall be discharged and any undertaking given pursuant thereto shall be annulled and of no further effect. If the canvass of the votes cast at such election show two-thirds or more of all votes cast are "Completion of project—Yes" (and also shows that two-thirds of the qualified voters who voted at said election voted "Completion of project—Yes") said state engineer shall thereupon appoint the commissioners provided for in section 19 of this act and thereafter such proceedings shall be taken and followed as are provided in said section 19 and subsequent sections of this act.

SEC. 4. Section 19 of said act is hereby amended to read as follows:

SEC. 19. If the board of directors recommends that said project be carried out in accordance with the plans and specifications in its said report contained, the state engineer shall make such further investigation of such project as is in his judgment desirable and shall as soon as possible after the expiration of sixty days after the filing of said report make and enter upon the records kept by him an order either approving and confirming said report and recommendation or disapproving the same. Pending final approval or disapproval by the state engineer, the board of directors may amend, modify, or supplement their report and the plans, specifications and estimates and other matters accompanying the same, either on their initiative or in response to suggestions by the state engineer.

Immediately after making and recording such order, the state engineer shall call a district election for the purpose of determining whether such recommendation and report shall be adopted, such election to be noticed, held, and conducted and the result thereof determined and declared in all respects as nearly as possible as provided in section 18 of this act, the notice of election to state whether such report and recommendation is approved or disapproved by the state engineer.

If the result of such election shows that more than one-third of all votes cast are "Completion of project—No" (or that more than one-third of the qualified voters who voted at said election voted "Completion of project—No"), the project shall be deemed abandoned and proceedings shall be thereafter taken as provided in section 18 in case of abandonment. If the result of such election shows two-thirds or more of all votes cast are "Completion of project—Yes" (and also shows that two-thirds of the qualified voters who voted at said election voted "Completion of project—Yes"), said report and recommendation shall be deemed to be adopted by the district. In case of the adoption of said report and recommendation the state engineer shall forthwith appoint three (3) commissioners whose duty it shall be to assess the cost of the project, or in the event said board shall have divided the project into units of construction, the cost of the unit or units specified for immediate construction, upon the benefited lands within the district, and the said cost shall be apportioned in accordance with the benefits that will accrue to each tract of land held in separate

ownership in said district by reason of the expenditures of said sums of money, and the completion of the project, or such unit or units thereof as have been specified for immediate construction, such assessment to be in gold coin of the United States; *provided, however*, that if the project shall include plans for the generation of electric power, then the commissioners shall ascertain the total cost of all the properties which are necessary to be used in connection with the generation of electric power as set forth in said plan, and shall also ascertain what portion of the assessment of benefits to accrue to each tract made as herein provided consists of costs of the properties which are necessary to be so used; and *provided, further*, that where any such tract of land consists of more than one section such apportionment to such tract of land shall be made according to legal subdivisions thereof or to other boundaries sufficient to identify the same in subdivisions not greater than one section in area, but any failure or defect in complying with this requirement shall not invalidate said apportionment or said assessment. One of said commissioners shall be a civil engineer and one shall have a practical knowledge of irrigation, and none of said commissioners shall have any interest in any land in the district either directly or indirectly, and each commissioner before entering upon his duties shall take and subscribe an oath that he is not in any manner interested directly or indirectly in any land in the district and that he will perform the duties of commissioner to the best of his ability, and said commissioners shall be paid as compensation for the services rendered by them such sum, or sums, as the state engineer shall fix and determine, which shall be considered a part of the cost of the project, and said state engineer may issue warrants therefor, which shall be payable out of the funds of said district and may be included in any bond issue authorized for the purposes of said district. The said commissioners shall receive from the board of directors of the district a copy of the detailed plans, specifications, and estimate of the costs of the project, which have been duly filed with the state engineer. The said commissioners shall thereupon prepare and certify to the state engineer in triplicate rolls which shall contain:

(1) A description of each tract held in separate ownership by legal subdivisions, governmental surveys or other boundaries sufficient to identify the same; *provided, however*, that if any area composed of more than one tract held in separate ownership is not assessed because the lands therein will not be benefited by the expenditure of the funds to be raised by the assessment, a description of such area as a whole without a description of each tract thereof shall be sufficient.

(2) The number of acres in each tract;

(3) The name and address of the owner of each tract, if known, and if unknown, that fact, but no mistake or error in the name of the owner or supposed owner of the property assessed, and no mistake in any other particular, shall render the assessment thereof invalid;

(4) The rate per acre of such assessment upon each tract assessed or if no assessment is made upon any tract, or area composed of more than one tract, a statement of that fact;

(5) The rate per acre of such assessment upon each tract assessed for the costs of the properties which are necessary to be used in connection with the generation of electric power, or if no assessment of such costs is made upon any tract, or area composed of more than one tract, a statement of that fact;

(6) The total amount of the assessment as computed;

(7) Any other statement which may be required by the state engineer and as to which notice is given in writing to the commissioners at the time of transmitting the plans and specifications and costs of the work for the district before mentioned.

The roll shall be separately made for lands lying within different counties contained within said district. Said rolls when completed shall be accompanied by the written report of the commissioners wherein is set out with particularity the exact nature and quantum of the benefits so assessed, both in respect of the right in and to stored surplus waters, and the right to store water in the reservoir or reservoirs of the district, apportioned and allocated to each such tract of land in said district and also through any drainage or reclamation work connected therewith and also the portion of the assessment attributable to the cost of the properties which are necessary to be used in connection with the generation of electric power. In such report lands embraced within a comprehensive area or a political subdivision of the state may be referred to generally as lands lying within such area or subdivision without further description.

Said rolls when completed shall be duly certified by said commissioners and forthwith by them filed in the office of the state engineer. Said state engineer shall forthwith transmit two copies of said rolls to the board of directors of said district, who shall file one copy in their records and thereupon transmit to the county treasurer of each county within such district that portion of the roll relating to the lands within such county. Thereafter the executive directors and the president of the board of directors of the water storage district in which the lands described in said rolls are situated shall become and constitute a board, in the nature of a board of equalization, which shall be known and designated as the "adjustment board" and whose functions shall be to consider and act upon objections, if any, presented as herein provided to the assessment made by said commissioners. For that purpose said adjustment board shall at once organize by the election from its members of a

president and a secretary and shall thereupon appoint times and places not less than thirty days after said rolls have been filed in the records of said board of directors when and where it will meet within each county wherein lands of said directors are situated for the purpose of hearing objections to said assessments, and notice of such hearing shall be published at least once a week for two successive weeks in each county in which any land within said district may be situated. Said objections, if any, must be in writing verified and filed with the state engineer, and shall set forth the grounds of such objections. Such verification shall be made by the affidavit of the objector or some other person who is familiar with the facts. Said adjustment board may postpone such hearings from time to time. At such hearings the adjustment board shall hear such evidence as may be offered touching the correctness of such assessment, and may modify, amend, or approve the said assessment in any particular and may reapportion the whole or any part thereof; *provided, however*, that no assessment shall be increased except after personal notice or notice by registered mail given to the owner, if known, by depositing in the post office at the place in which the office of said district is located in a sealed envelope addressed to each of such owners at his last known, if any, place of residence or business, otherwise at the county seat of the county in which any portion of his lands are situated, with full postage paid, at least two weeks before said hearing, or if unknown by publication at least once a week for two successive weeks in the county in which said land in the district may be located, and upon a hearing of objections thereto if made.

Said adjustment board, after said hearings, must make an order approving such assessment as finally fixed or modified, which order shall be filed with and entered in the records of the state engineer, and the apportionment and determination of said adjustment board shall be final and conclusive, and no action or defense shall ever be maintained attacking the same in any respect. Two copies of said assessment roll as finally fixed and approved by the adjustment board shall be forthwith certified by the secretary of such adjustment board and transmitted to the board of directors of the said district, who shall file one copy in their records and thereupon immediately transmit to the county treasurer of each county within such district that portion of the roll relating to the lands within such county together with a copy of the order of approval of such assessment roll by said adjustment board. Thereafter said assessment roll shall be conclusive evidence before any court or tribunal that said assessment has been made and levied according to law.

When the board of directors shall file with the county treasurer of a county within such district the said assessment list or roll as finally approved as hereinbefore provided the charges assessed thereby upon the several tracts of land within the county shall constitute a lien thereon which shall be prior to all other liens except state, county and municipal taxes, and assessments or taxes levied or assessed by or under statutory authority and shall impart notice thereof to all persons. Where bonds of such district have been issued upon any such assessment no act or conduct on the part of such board of directors, or any officer herein mentioned, shall invalidate any such assessment after the same shall have become a lien in the manner herein provided.

In the event of the division of the project into units of construction, and the specification of one or more units for future construction, the board of directors shall at such time as it shall determine upon the construction of any such unit or units, pass a resolution to that effect and cause a certified copy thereof to be transmitted to the state engineer. At such time the board may amend the plans, specifications and estimates of costs of such unit or units by making such changes therein, modifications thereof, and additions thereto, as it shall deem desirable, and in the event of any such change, modification, or addition, the board shall cause to be filed with the state engineer, the plans, specifications and estimates of costs of such unit or units as amended. Upon receipt by the state engineer, of such certified copy of resolution and such amended plans, specifications and estimates of cost, if any, the same proceedings for levying, approving and collecting an assessment to meet the cost of the unit or units to be constructed shall be had as hereinbefore provided for an assessment to meet the cost of the unit or units first constructed.

Any proceedings taken under this section prior to the going into effect of this act amending the same, and conforming to said section as it read before such amendment, shall not be invalidated by the passage of this act, but all subsequent proceedings shall be taken into accord with said section as so amended.

SEC. 5. Section 21 of said act is hereby amended to read as follows:

Sec. 21. At the end of thirty days the county treasurer must make return to the board of directors of the district of all assessments paid. All unpaid assessments shall bear interest at the rate of seven per cent per annum. Thereafter all unpaid assessments and accrued interest shall be collected when and as called, and paid to the treasurer of the county or counties, who shall collect and hold such moneys to the credit of the district. Unless bonds shall have been authorized as hereinafter provided, all such payments shall be made in such amounts or installments and at such times respectively as the said board, from time to time, in its discretion, by order entered in its minutes, may direct. Upon making any order fixing and calling such installment or amount, the secretary shall also enter in the minutes of the

board, and certify to each county treasurer for signature and mailing or publication in the counties in which any lands within the district are situated a notice in substantially the following form:

(Name) water storage district. (Location of the principal place of business.) Notice is hereby given that at a meeting of the board of directors held on \_\_\_\_\_ an installment of \_\_\_\_\_ per cent of a \_\_\_\_\_ assessment number \_\_\_\_\_ was ordered paid within sixty days from the date thereof to the respective county treasurers of the counties wherein lands of such district are situated. Any installment which shall remain unpaid on the (day fixed) will be delinquent together with the accrued interest thereon, with ten per cent of such installment and interest added as penalty (Signed) \_\_\_\_\_ Treasurer of \_\_\_\_\_ county.

Such notice must be sent through the mail, addressed to each owner of land in the district at his place of residence if known, and if not known, at the place where the principal office of the district is situated, or in the absence of such notice shall be published once a week for two consecutive weeks in each such county.

If any such installment shall remain unpaid at the expiration of said sixty days from the date of the order, then the said installment of said assessment shall become delinquent, together with the accrued interest thereon and a penalty of ten per cent of the amount of said installment and interest shall be added thereto and collected for the use of the district.

Immediately after the said installment has become delinquent the said county treasurer or county treasurers must prepare and as soon as the same is complete publish once a week for two consecutive weeks in each county wherein lands of the district are situated, in one notice a list of all delinquencies in such county, which notice shall contain a description of the property assessed, the name of the person to whom it is assessed or a statement that it is assessed to unknown owners, if such is the fact, the amount then due on said property, and a notice that the property assessed will be sold on the date therein stated in front of the courthouse of said county to pay the amount then due on said property. The date of said sale shall not be less than ten days after the date of the last publication of said notice. At the time stated in said notice, or such other time to which said sale may have been postponed, the county treasurer must sell said property to the highest bidder for gold coin of the United States. Out of the proceeds of said sale the county treasurer must deposit the amount due on said property as shown in said notice to the proper fund of the said district. The county treasurer must pay to the owner of said property any surplus remaining after said deposit to the credit of the district, after first deducting any expense of sale. Except where lands have been issued upon an assessment the board of directors may direct the county treasurer to postpone said sale from time to time, for not less than ten nor more than thirty days at one time, by a written notice posted at the place of sale.

If no bid is made for said property equal to the amount due thereon, it must be struck off to the district for the said amount so due. A certificate of such sale shall be executed by the county treasurer to the purchaser, or to the district if the property shall have been struck off to the district, and this certificate of sale shall be recorded in the office of the county recorder of said county. Any person interested in said property may redeem the same at any time within three years after the date of said sale, by paying to the county treasurer the amount for which the said property was sold, and interest on the said sum at the rate of one per cent per month from the date of said sale, which amount shall be credited to the proper fund of said district.

If no redemption shall be made within said three years, the purchaser or the district, if the property shall have been sold to the district, shall be entitled to a deed executed by the county treasurer or his successor in office, and the effect of such deed shall be to convey said property free and clear of all liens and incumbrances except state, county and municipal taxes, assessments or taxes levied or assessed by or under statutory authority and any water storage district assessment or portion thereof remaining unpaid at the date of said sale, each installment whereof may be called and collected as herein provided. The board of directors may sell such property sold to the district at any time at public auction after notice given for the same period and in the same manner as is herein provided for sale of delinquent assessments, but not for a sum less than the amount for which said property was sold, with interest at seven per cent per annum, and the deed executed in pursuance of such sale shall convey said property free of all incumbrances except as hereinabove provided for said deed by the county treasurer.

SEC. 6. Section 32 of said act is hereby amended to read as follows:

SEC. 32. No director or any other officer named in this act shall in any manner be interested, directly or indirectly, in any construction or supply contract awarded or to be awarded by the board, or in the profits to be derived therefrom, but no other character of contract shall be invalid because of interest on the part of a director or officer, unless such director or officer participate in or influence the making or authorization of such contract on behalf of the district; and for any violation of this provision, such officer shall be deemed guilty of a misdemeanor and conviction shall work a forfeiture of his office, and he shall be punished by a fine

not exceeding five hundred dollars, or by imprisonment in the county jail not exceeding six months, or by both such fine and imprisonment.

No owner of property, nor any employee, or stockholder thereof, shall be qualified to serve as a director or as any other officer named in this act where said district proposes to acquire such property of such owner.

Sec. 7. Section 35 of said act is hereby amended to read as follows:

Sec. 35. The board of directors of a water storage district shall establish a convenient number of election precincts in the district and define the boundaries thereof and at least one such precinct must be established for each division of the district, and said board whenever it is deemed advisable for the best interests of the district and the convenience of the voters may at any time, but not less than sixty days before an election to be held in the district, change the boundaries of any such election precinct, which changes when made must be entered upon the minutes of the board.

After any such district shall have adopted its project, the state engineer shall, not less than sixty days prior to the next general election to be held in said district, redivision the said district by dividing the same into the same number of divisions into which the said district had theretofore been divided, but changing the basis of said divisions and the boundaries thereof so that said divisions shall be as nearly equal as to the number of land owners entitled to vote therein as may be conveniently possible. Said order of the state engineer shall be filed in the office of said state engineer and a copy thereof certified by said state engineer filed in the office of the secretary of said district. Thereafter, said board of directors shall at its next regular meeting establish a convenient number of election precincts in each of said new divisions and no precinct shall include any lands situate in more than one of said divisions. The directors theretofore in office at the time said new divisions are established shall continue to hold for the divisions from which they were elected until the expiration of the terms for which said directors were elected, but their successors, and the successors of each of them, shall be elected from said new divisions in accordance with the provisions of this section.

Sec. 8. Section 40 of said act is hereby amended to read as follows:

Sec. 40. The inspector is chairman of the election board and may administer all oaths required in the process of an election; and appoint judges if, during the progress of the election, any judge ceases to act. Any member of the board of election may administer and certify oaths required to be administered during the progress of an election. Before opening the polls, each member of the board must take and subscribe an oath to faithfully perform the duties imposed upon him by law. Any voter of the precinct may administer and certify such oath. The polls must be opened at six a.m. on the morning of the election, and be kept open until seven p.m., when the same must be closed.

Sec. 9. Section 51 of said act is hereby amended to read as follows:

Sec. 51. For all purposes of this act relating to signing petitions and voting at any election, and for all other purposes when the question of title or value of land claimed to be owned by a petitioner or voter is involved, the county assessment roll last equalized at the time of the election or filing of the petition, in each county wherein any such land is situated shall be sufficient evidence of ownership and value. If any parcel of land is assessed on any such assessment roll to unknown or fictitiously named owners, or to unnamed owners in addition to any owner or owners named thereon, said parcel of land shall be deemed for any of the purposes of this act to have but one owner in addition to any owner or owners whose true name or names may be purposed to be given on such assessment roll. The holder of title or evidence of title to an undivided interest in any land affected by any of the provisions of this act may sign any petition or vote at any election provided for in this act, and such undivided interest shall be counted and valued as though it were a separate interest, and if the assessment roll shall fail to indicate the extent of any such undivided interest the holders of title or evidence of title whose undivided interests in any land are not specifically defined shall be deemed to have equal shares therein. Where property has been conveyed prior to the election and such change of interest does not appear by such assessment roll the original deed of conveyance, or a copy thereof duly certified by the county recorder of the county wherein the same has been recorded, or otherwise authenticated, shall be sufficient evidence to entitle the holder thereof to vote the acreage therein described. Any person not legally qualified to vote who shall make any false statement in respect to his right to vote shall incur all of the penalties provided in the Penal Code of the State of California for persons illegally voting at elections. The certificate of the register of the United States land office for the district in which the lands are situated, or of the surveyor general of the State of California, shall be sufficient evidence of possessory right in any lands entered under the laws of the United States or of the State of California. Guardians, personal representatives and other persons holding land in a trust capacity under appointment of court may sign any petition and may vote at any election in behalf of the estate represented by them without obtaining any special authority therefor. A certificate of acknowledgment taken before a notary public or justice of the peace of any state, or an affidavit by any person in the presence of whom a petition was signed, shall be

sufficient evidence of the genuineness of such signature and of the fact of place of residence of any petitioner under this act. The state engineer shall, prior to the election on organization, and at all subsequent elections the board of directors shall, cause to be prepared and certified and furnished to the election board at each voting place in the district a copy of each of said assessment rolls so far as the same pertain to any land in the respective precincts, and shall likewise cause to be prepared and furnished to the election boards lists certified by the register of the United States land office or the surveyor general of the State of California, as the case may be, showing the lands entered under the laws of the United States or of the State of California, respectively, which said lists, so far as disclosed by the records of said offices, shall contain the names of the persons entitled to possessory rights therein and the quantity of land held by each of said persons by virtue of said rights. Said assessment rolls and said lists shall be used by the election boards in determining the qualifications of voters and the number of votes each voter is entitled to cast.

Where a tract of land is situated partly within and partly without the boundaries of an election precinct and the assessment roll contains a valuation of said tract as a whole the same must be apportioned according to the number of acres lying within and without the boundaries of said precinct. If there shall be included in any assessment roll or list as furnished to an election board any land which has no valuation assigned to it, then the state engineer or the board of directors, as the case may be, shall request the county assessor of the county in which such land is situated to value said land and it shall be the duty of such county assessor to prepare and furnish to the state engineer or board requesting it a statement of the value of such land as the same shall be appraised by him, which value shall be arrived at as nearly as may be done in the same manner and upon the same basis as was the valuation for purposes of taxation assessed upon other lands in the precinct similarly situated, and the valuation so made by the county assessor shall be furnished to the election board of the precinct in which the land so valued is situated and shall be used by the election board in determining the number of votes which the holder of title or evidence of title to such land is entitled to cast.

SEC. 10. Section 64b of said act is hereby amended to read as follows:

Sec. 64b. The holder or holders of title or evidence of title to one or more tracts of land which constitute a portion of a water storage district may jointly or severally file with the state engineer, a petition, praying that such tract or tracts, and any other tracts contiguous thereto, may be excluded and taken from the district. The petition shall state the grounds and reasons upon which it is claimed that such lands should be excluded, and shall describe the boundaries thereof, and also the lands of such petitioner or petitioners which are included within such boundaries, but the description of such lands need not be more particular or certain than is required when the lands are entered in the assessment book by the county assessor. Such petition must be acknowledged in the same manner and form as is required in the case of a conveyance of land, and the acknowledgment shall have the same force and effect as evidence as the acknowledgment of such a conveyance.

SEC. 11. Section 64c of said act is hereby amended to read as follows:

Sec. 64c. The state engineer shall cause a notice of the filing of such petition to be published for at least two weeks in some newspaper published in the county where the office of the board of directors is situated, and if any portion of such territory to be excluded lie within another county or counties, then said notice shall be so published in a newspaper published within each of said counties; or if no newspaper be published therein, then by posting such notice for the same time in at least three public places in said district, and in case of the posting of said notices, one of said notices must be so posted on the lands proposed to be excluded. The notice shall state the filing of such petition, the names of the petitioners, a description of the lands mentioned in said petition, and the prayer of said petition; and it shall notify all persons interested in, or who may be affected by such change of the boundaries of the district, to appear at the office of the said board at a time named in said notice, and show cause, in writing, if any they have, why the change of the boundaries of said district, as proposed in said petition, should not be made.

SEC. 12. Section 64d of said act is hereby amended to read as follows:

Sec. 64d. The state engineer at the time and place mentioned in the notice, or at the time or times to which the hearing of said petition may be adjourned, shall proceed to hear the petition, and all evidence or proofs that may or shall be introduced by or on behalf of the petitioner or petitioners, and all objections to such petition that may or shall be presented in writing by any person showing cause as aforesaid, and all evidence and proofs that may be introduced in support of such objections. The failure of any person interested in said district, other than the holders of bonds thereof outstanding at the time of the filing of said petition with said board, to show cause, in writing, why the tract or tracts of land mentioned in said petition should not be excluded from said district, shall be deemed and taken as an assent by him to the exclusion of such tract or tracts of land, or any part thereof, from said district; and the filing of such petition with said state engineer

as aforesaid, shall be deemed and taken as an assent by each and all of such petitioners to the exclusion from such district of the lands mentioned in the petition, or any part thereof. The expenses of giving said notice and of the aforesaid proceeding shall be paid by the person or persons filing such petition.

SEC. 13. Section 64c of said act is hereby amended to read as follows:

SEC. 64c. If upon the hearing of any such petition it appears that the lands sought to be excluded will not be benefited by irrigation from water supplied from said district or by reclamation or drainage of the land not made necessary by the irrigation of other lands the land shall be excluded from the district, but if no evidence or proofs in support thereof be introduced, or if the evidence fail to sustain said petition, or if the state engineer deem it not for the best interest of the district that the lands, or some portion thereof, mentioned in the petition, should be excluded from the district, the state engineer shall order that said petition be denied as to such lands; but if the said state engineer deem it for the best interest of the district that the lands mentioned in the petition, or some portion thereof, be excluded from the district, and if no person interested in the district show cause in writing why the said petition should be denied in whole or in part, or if, having shown cause, with draws his objections, or upon the hearing fails to establish such objections as he may have made, then it shall be the duty of said state engineer to, and he shall forthwith, make an order that the lands mentioned, and described in the petition, or some defined portion thereof, be excluded from said district.

SEC. 14. Section 64f of said act is hereby amended to read as follows:

SEC. 64f. If there be outstanding bonds of the district at the time of the filing of said petition, the holders of said outstanding bonds may give their assent, in writing, to the effect that they severally consent that the lands mentioned in the petition, or such portion thereof as may be excluded from said district by order of said state engineer, may be excluded from the district, and if said lands or any portion thereof be thereafter excluded from the district, the lands so excluded shall be released from the lien of such outstanding bonds. The assent must be acknowledged by the several holders of such bonds in the same manner and form as is required in case of a conveyance of land, and the acknowledgment shall have the same force and effect as evidence as the acknowledgment of such conveyance. The assent shall be filed with the state engineer and must be recorded in the minutes of the state engineer; and said minutes, or a copy thereof, certified by the state engineer, shall be admissible in evidence, with the same effect as the said assent, and such certified copy thereof may be recorded in the office of the county recorder of the county wherein said lands are situated.

SEC. 15. Section 64g of said act is hereby amended to read as follows:

SEC. 64g. In the event the said state engineer shall exclude any lands from said district upon petition therefor, it shall be the duty of the state engineer to make an entry in the minutes of the state engineer describing the boundaries of the district, should the exclusion of said lands from said district change the boundaries of said district, and for that purpose the state engineer may cause a survey to be made of such portions of the district as the state engineer may deem necessary; and a certified copy of the entry in the minutes of the state engineer excluding any land, certified by the state engineer, shall be filed for record in the recorder's office of each county within which are situated any of the lands of the district; but said district, notwithstanding such exclusion, shall be and remain a water storage district as fully, to every intent and purpose as it would be had no change been made in the boundaries of the district, or had the lands excluded therefrom never constituted a portion of the district.

SEC. 16. Section 64h of said act is hereby amended to read as follows:

SEC. 64h. In case land is excluded from any district, the state engineer, if he deems it desirable, but not less than sixty days before any election in such district, may reestablish the boundaries of the divisions within such district.

SEC. 17. Section 68 of said act is hereby amended to read as follows:"

#### ASSEMBLY JOINT RESOLUTION No. 5.

Relating to the participation of California in the Great Lakes-St. Lawrence Tide Water Association to facilitate and expedite the prosecution of the construction of a seaway connecting the Great Lakes with the Atlantic Ocean.

WHEREAS, The growth of the essential industries of the State of California depends in large measure upon the extension of her commerce with the interior of the nation—an interior now handicapped in its development by high transportation rates to and from the sea; and

WHEREAS, Such handicap, both to present commerce and to the development of a still larger, wider and more valuable commerce, may be overcome only by bringing ocean transportation to the heart of the continent, thereby giving to the interior direct low cost transportation to its markets, both selling and buying, throughout the world, and by reason of such action stimulating a business development and population growth that shall enlarge the market outlets for the products of the State of California; and

WHEREAS, The Panama Canal has made it possible for the producers of the State of California to reach the seaboard markets of the Atlantic Coast to their very great advantage, while the equally desirable markets upon and surrounding the Great Lakes are still closed to our producers; and

WHEREAS, The joint board of engineers for the United States and Canada has declared that a seaway connecting the Great Lakes with the Atlantic by way of the St. Lawrence River, thereby extending to our producers the full benefits of direct ocean connection with the interior of the continent, is practical from the engineering standpoint, and the St. Lawrence Commission of the United States, on December 27, 1926, after an investigation, at the instance of the national government, of the economic needs and requirements, declared "The construction of the shipway from the Great Lakes to the sea is imperative"; and

WHEREAS, Eighteen states, by action of their legislatures, have joined the Great Lakes St. Lawrence Tidewater Association, an association of sovereign states, having as its object the early undertaking and completion of this improvement; and

WHEREAS, The transportation situation now existing constitutes an emergent need calling for immediate relief; now, therefore, be it

*Resolved by the Assembly and the Senate of the State of California, jointly,* That the State of California is hereby associated in the above named organization with its neighboring commonwealths in pressing to advance to completion this undertaking, and that participation by this State in the council of the said associated states by the Governor and by those whom he may appoint to said council as representing the State of California is hereby ordered and approved, and that the representatives of this State in the Congress of the United States are hereby requested to facilitate and expedite in every possible way the prosecution of this undertaking for the economic freedom of a landlocked continent.

#### RESOLUTION.

The city council of the city of Long Beach resolves as follows:

WHEREAS, Senate Bill No. 818, now pending in the Legislature of the State of California, proposes to increase the salary of the board of supervisors of Los Angeles County by paying each of them an additional sum of \$5,000 per year out of the tax funds of the Los Angeles County Flood Control District; and

WHEREAS, The Los Angeles County charter fixes the salary of said board of supervisors at \$5,000 per year each, and also provides they shall devote all of their time to the duties of such office, and it would, therefore, be inconsistent with such charter to pay them such proposed increased salary without amending such charter to that effect, in the manner provided by law; and

WHEREAS, Such expenditure for salary from flood control tax funds would reduce to the extent of \$25,000 per year the amount available for needed flood protection and maintenance work; now, therefore, be it

*Resolved by the city council of the city of Long Beach, That it hereby opposes such proposed increase of salary of said board of supervisors; and be it further*

*Resolved, That we hereby request Senators Merriam and Carter and Assemblymen Harry F. Sewell, Morgan Keaton and Frank McGinley to oppose the passage of said Senate Bill No. 818; and be it further*

WHEREAS, There is now pending in the Legislature of the State of California a certain bill designated Assembly Bill No. 1055, purporting to amend section 2 of the "Los Angeles County Flood Control Act," as amended, by vesting the power in the board of supervisors of the Los Angeles County Flood Control District to sell or dispose of any property of said district, or any interest therein, not acquired by condemnation, whenever in the judgment of said board of supervisors said property is no longer required for the purposes of said district; and

WHEREAS, Such power so given may be deemed or construed to apply to and include water and water rights and interests therein, as well as to storage rights and space for storage of water in the reservoirs and dams belonging to said district, and also to waters claimed to be unappropriated or surplus waters impounded or stored by the reservoirs and dams constructed by said district; and

WHEREAS, There is no procedure provided by said bill for said board of supervisors to determine whether there are any such unappropriated or surplus waters, or requiring any notice to owners or users of water that may be affected by such sale or lease, or any hearing required as to existing water rights, but the power of sale or lease of any such waters or storage is left by the terms of said bill to the sole judgment and discretion of said board of supervisors by their ex parte determination; now, therefore, be it

*Resolved*, That the city council of the city of Long Beach hereby opposes the passage of said bill, and hereby requests Senators Frank C. Morriam and Henry E. Carter and also Assemblymen Harry F. Sewell of Whittier, Morgan Keaton of Long Beach, and Frank McGinley of Seventy-first Assembly District to actively oppose the passage of said Assembly Bill No. 1055 to the end that the same may not become a law; be it further

Drafts of the reclamation board may be presented to the controller and warrants drawn as aforesaid, against the funds to be raised by an assessment as soon as the reclamation board has passed its order or resolution for the levy of such assessment and appointed the assessors therefor. In case there are not sufficient funds applicable thereto for the payment of such warrants when presented to the state treasurer, he shall endorse on such warrants the date of presentation and register the same, and thereafter such warrants shall bear interest at the rate of seven per cent per annum, and must be paid in the order of their registration. Whenever there is sufficient money in the treasury applicable to the payment of any outstanding warrants of the district, the state treasurer shall give notice that there is money in the treasury to pay certain warrants, giving their numbers in the order of their registration; said notice shall be published for ten days in one newspaper published in the city of Stockton and one published in the city of Sacramento. After the last publication of said notice the warrants therein mentioned shall cease to bear interest. The reclamation board shall designate a paper in each of said cities which shall be the official papers of said district for the purpose of such publication. Whenever in the opinion of the reclamation board it shall appear that the total amount of any assessment previously levied and assessed and which has become a lien upon lands in said drainage district, including assessments which have been bonded pursuant to the provisions of chapter five hundred twenty, statutes of 1919, is greater than required to meet all obligations incurred or to be incurred for the purposes for which such assessment was levied, the reclamation board may by resolution entered in its minutes, order the release of the lien of and abandonment of any part of the charges against any tract so assessed not required to be collected, as aforesaid; *provided, however*, that the portions of said assessment to be first abandoned and released shall be such portions of the charges on each tract as are based upon flood control benefits or by-pass severance as those terms are defined in, and have been determined by the assessors appointed by the reclamation board, pursuant to the provisions of section 32 of this act; and a copy of such resolution certified by the secretary of said board and attested with its seal shall be deposited in the office of the county treasurer of each county wherein is situated any land affected by such assessment, and shall be by such county treasurer annexed to the assessment list of such assessment for that county; and in any such case, when a payment has been made upon the part of such assessment upon any tract of land so abandoned and released, in whole or in part, the reclamation board may cause such warrants to be issued, in the manner as provided in this section, as may be necessary to secure a just, fair and equitable readjustment of said assessment so paid. Likewise, the reclamation board may also in its discretion abandon any assessment in whole or in part at any time prior to the time when the lien of such assessment has accrued to the extent that said assessment shall be greater than required to meet the obligations incurred or to be incurred thereon. In case of any change of county boundary lines or creation of any new county, all acts and proceedings in this act provided for in the manner of or relating to or in pursuance of or founded upon any assessment upon lands affected by such change of county boundary lines, or creation of such new county, shall be done and conducted as if such lands were situated in the same county as at the time of appointment of the assessors to make such assessments.

SEC. 3. A new section is hereby added to said act to be numbered 15a and to read as follows:

Sec. 15a. All warrants of the Sacramento and San Joaquin drainage district when received by the reclamation board, department of finance, the respective county treasurers or any other officer authorized by law to accept same, for the cancellation or retirement thereof or in payment of assessments, shall be by said board, department, or officer transmitted to the state controller who is hereby directed to give said board, department, or officer a receipt for said warrants. By complying with the following provisions, any corporation formed under the laws of this state may create a bonded indebtedness or increase the same, and two or more corporations formed under the laws of this state may create or increase a consolidated bonded indebtedness:

(1) A resolution authorizing such creation or increase of bonded indebtedness and stating the amount of the bonded indebtedness to be created, or the amount to which the bonded indebtedness is to be increased, shall be adopted by the affirmative vote of at least a majority of the directors or trustees of such corporation, at a regular or special meeting, which resolution must be approved by the vote or written assent or assents of stockholders representing at least two-thirds of the subscribed shares of each class of stock of the corporation, or of a majority of the members of a corporation without shares of stock; if approved by the vote of stockholders or members, such vote may be had at a regular or a special meeting, and a resolution, containing a copy of the resolution adopted by the board of directors and setting forth the fact of the approval thereof by the stockholders or members, must be adopted by the votes of stockholders either present in person or represented by proxy at said meeting and representing at least two-thirds of the subscribed shares of each class of stock of the corporation, or, except as hereinafter provided, by the votes of a majority of the members of a corporation without shares of stock; in lieu of the approval of such resolution at a meeting of stockholders or members, such resolution may be approved by the written assent or assents of stockholders representing at least two-thirds of the subscribed shares of each class of stock of the corporation or, except as hereinafter provided, by the written assent or assents of a majority of the members of a corporation without shares of stock, which assent or assents shall contain a copy of such resolution and shall state the fact of the approval thereof by the stockholders or members and shall be filed with the secretary of the corporation; *provided*, that such assent may be executed and filed by the attorney-in-fact of any stockholder or member with the same effect as if executed and filed by his principal; *provided*, that if, pursuant to the articles of incorporation or amended articles of incorporation of any corporation without shares of stock, the respective members thereof have unequal voting power, the affirmative vote or written assent of members representing a majority of the votes in such corporation shall be sufficient to approve the resolution passed by the directors or trustees; *provided*, further, that if the by-laws of a corporation without shares of stock fix the number of members constituting a quorum, the affirmative vote or written assent of members equal in number to two-thirds of such number shall be sufficient to approve the resolution passed by the directors or trustees; *and provided*, further, that a corporation without shares of stock, whose articles of incorporation, or any amendment thereto, authorize its board of directors or trustees to create a bonded indebtedness or increase the same without the approval of its members, shall not be subject to the provisions of this section requiring approval of the resolution of such board by such members.

(2) Any two or more corporations formed under the laws of this state may, by complying separately with the provisions of this section relating to the creation or increase of bonded indebtedness, create or increase a consolidated bonded indebtedness which shall be binding jointly and severally on such corporations, and which may be secured by a consolidated mortgage or deed of trust executed by all such corporations, mortgaging or conveying in trust all or any of the properties of all such corporations acquired or to be acquired.

SEC. 13. Section 362 of the Civil Code is hereby amended to read as follows:

362. By complying with the following provisions, any domestic corporation may amend its articles of incorporation to include or omit any provision authorized by this code, including any or all of the following purposes:

(1) To change its name to any name not likely to mislead the public, or which is not the same as, and does not resemble, so closely as to tend to deceive,

(a) The name of a domestic corporation, or

(b) The name of a foreign corporation which is authorized to transact intrastate business in this state, or

(c) A name which is under reservation, as provided in section 296a of this code, unless the certificate of reservation is presented at the time of filing of the certificate of such amendment or it is established to the satisfaction of the secretary of state that such name was reserved for such use.

(2) To change or add to its powers and purposes; or to set forth different or additional powers or purposes;

(3) To change the location of its principal office or place of business to any other county within the state; *provided*, that no amendment need be made to change the principal office from one location to another in the same county or city and county;

(4) To state, if it so desires, the period of its existence as extended;

(5) To increase or diminish the number of its directors;

(6) To increase or decrease the authorized number of its shares or the aggregate par value thereof;

(7) To provide for the classification of its shares of stock, in which event there must be set forth a statement of the number of shares of each kind or class, and the nature and extent of the preferences, rights, privileges and restrictions granted to or imposed upon the holders of the respective classes of stock, and, except as to the matters and things so stated, no distinction shall exist between said classes of stock or the holders thereof;

(8) To change the statement of such classification or the nature and extent of such preferences, rights, privileges or restrictions of the shares issued or unissued, or to repeal such statement and eliminate such classification of the shares;

(9) To change shares having par value into the same or a different number of shares without par value; to increase or reduce the par value of shares; to change shares without par value into the same or a different number of shares with or without any par value;

(10) Generally, to alter its articles in any other respect, lawful at the time of making the amendment.

A resolution providing for any such amendment must be adopted by the affirmative vote of a majority of the directors or trustees of the corporation, and must be approved by the vote or written assent of shareholders holding at least a majority of the issued and outstanding shares, or by the vote or written assent of the members representing a majority of the voting power, if the corporation has no shares of stock. If any proposed amendment provides for an increase in the aggregate par value of the shares of a corporation or would make any change in the preferences, rights, privileges, or restrictions of any class of issued and outstanding shares, the vote or written assent of the holders of two-thirds of the issued and outstanding shares of each class of stock shall be necessary to the approval thereof, or such larger majority as the articles of incorporation or any amendment thereto may require. The resolution or assents of such shareholders or members must contain a copy of the resolution of the directors or trustees and state the fact of approval thereof.

After such amendment has been approved, the president or a vice president and the secretary or an assistant secretary shall execute a certificate, under the seal of the corporation, which shall be verified by their oath and shall set forth:

(1) The time and place of the meeting of the board of directors or trustees;

(2) A copy of resolution adopted thereat;

(3) The vote in favor of such resolution;

(4) The time and place of the meeting of the shareholders or members and the total vote by which such resolution was approved, or, if the approval was by written assent, the number of shares or members represented by the assents filed with the secretary of the corporation;

(5) The fact that the resolution or assents of the shareholders or members contained a copy of the resolution of the board of directors or trustees and expressed their approval of said resolution;

(6) The number of issued and outstanding shares, and number of each class of such shares, if classified, or the number of members of the corporation;

*Provided*, that two-thirds of the incorporators of any corporation which has not accepted subscriptions for shares other than those set forth in its articles of incorporation, may adopt any such amendment by executing a certificate stating that no subscriptions for shares other than those set forth in the articles of incorporation have been accepted by the corporation and that the signers thereof thereby adopt the amendment therein set forth, which certificate shall be verified by the oath of each signer thereof.

Any certificate of amendment may contain a copy of the articles of incorporation, as amended.

The certificate shall be submitted to the secretary of state, who shall file the same and put an indorsement of filing thereon if he finds that it shows a compliance with the provisions of this section. Thereupon, the articles of incorporation shall be deemed amended in accordance with such certificate and a copy of such amendment and the certificate thereto, certified by the secretary of state, shall be *prima facie* evidence of the performance of the conditions necessary to the adoption thereof.

The secretary of state shall forthwith issue a certified copy of said certificate and transmit said copy to the county clerk of the county in which the principal place of business of the corporation was situated at the time said corporation was incorporated, which copy shall be filed by said county clerk upon payment of the fee prescribed by law. A copy of such certificate, certified by the secretary of state, shall be filed by such corporation in the office of the county clerk of every other county in which such corporation has or holds real property. Any corporation which shall amend its articles of incorporation and shall fail to file certified copies, as required by the preceding sentence, shall be subject to the penalties and liabilities provided for in section 299 of this code for a failure of corporations to file copies of their articles of incorporation in the office of the county clerks of the counties in which they shall purchase, hold, or locate real property.

Nothing appearing herein shall be construed to permit a corporation to extend or reduce the term of its existence by amending its articles of incorporation.

Sec. 14. Section 593 of the Civil Code is hereby amended to read as follows:

593. Any church, diocese, synod, district or other religious organization and any other unincorporated association, society, club or organization not for profit and any number of persons, not less than three, may incorporate under this title.

The articles of incorporation shall state that the corporation is formed under this title for purposes other than pecuniary profit and shall set forth:

The number of persons so named shall constitute the number of directors of the corporation until changed in the manner provided by law or by this title.

5. The articles of incorporation may fix the voting power, property rights and interests of the members and may provide for different classes of membership, but unless otherwise provided therein there shall be but one class of members, whose voting power, property rights and interests shall be equal.

The persons who are to act in the capacity of directors must subscribe to the articles of incorporation and the signatures of any other persons desiring to associate with said persons for the purpose of forming such corporation shall also be subscribed thereto, and such execution shall be acknowledged as provided in section 292 of this code; *provided*, that the articles of incorporation of any church, diocese, synod, district or other religious organization or any other association, society or club which has a presiding officer, president or other head and an acting secretary, clerk, scribe or other similar officer, need be subscribed and acknowledged only by such officers, but there shall be attached thereto an affidavit by said officers that such association has at a meeting duly voted to authorize its incorporation, and that they executed the articles by authority of the association.

Upon the filing of the articles of incorporation with the secretary of state, the corporation shall be formed and shall continue to exist as a corporation until dissolved, with the capacity possessed by a natural person to contract, convey, take gifts of real and personal property, sue and defend, borrow money, give promissory notes or bonds therefor and secure the payment thereof by mortgage or deed of trust upon property real or personal and perform all other acts within or without the state to the same extent as a natural person, and to receive bequests and devise by will for its own use or upon trusts, to the same extent as a natural person, subject however to the provisions of section 1313 of the Civil Code of the State of California. The limitations of section 595 of the Civil Code shall not apply to such corporations heretofore organized or formed or hereafter organized under this section.

The directors of such corporation may be elected and by-laws for its government may be made and amended in accordance with the constitution, by-laws, discipline, rules and regulations of such church, society, or other organization, or in accordance with the by-laws adopted by it.

SEC. 15. Sections 290c, 290e, 290f, 290g, 290j, 291, 293, 294, 295, 321a, 344, 361, 403 and 604a of the Civil Code are hereby repealed."

Amendment adopted.

## AMENDMENT NUMBER TWO.

On page 1 of the printed bill, strike out lines 3 to 28, inclusive, and all of pages 2, 3, 4, 5, 6, 7 and 8, and insert in lieu thereof the following:

"3714. On or before the tenth day of July in each year, at such time as the county board of supervisors may direct, each county official, elective or appointive, or person in charge of any office, department, service, institution or district of the county, excepting irrigation and reclamation and any other district where a tax levy for such district is not carried on the regular county, city and county assessment roll. Including township officers and the judges of any court of record, and the executive head of each special district whose affairs and funds are under the supervision and control of the county board of supervisors or for which the county board of supervisors in ex officio the governing body, shall file with the county auditor of such county, an itemized estimate showing both the probable revenues from sources other than taxation that will accrue to his department, office, service, institution, or district, during the fiscal year, to which the budget is intended to apply, and all expenditures required by such department, office, service, institution or district, for the same period, together with a brief explanatory statement of the requested increases in expenditures over the current fiscal year, of if such estimate is not presented before the first day of July, such statement should show the increases and expenditures over the last completed fiscal year. The county board of supervisors shall submit to the county auditor a statement showing all new road and bridge construction and grade separation, classified by funds from which the same are to be financed, for the fiscal year to which the budget is intended to apply, together with the estimated cost thereof. The county board of supervisors shall also submit a similar statement showing their road and bridge maintenance or betterment program, as nearly as can be estimated, as well as an estimate of all expenditures for construction or improvement purposes proposed to be made from the proceeds of bonds or other income not yet authorized; *provided*, that not to exceed twenty per cent of the moneys belonging to any road district may be car-

ried in an "unappropriated reserve," and shall be available for the use of said district to cover expenditures that may have been insufficiently provided for or for unforeseen requirements as they may arise.

The estimates required in this section shall be submitted on forms prescribed by the state department of finance, and may only be varied or departed from with the approval of said department; *provided, however*, that any county may without disturbing the uniformity of the forms and data prescribed, add to the information required or show the same in more detail. The county auditor is hereby directed to provide such forms, and it is made his duty to prepare the estimates for interest and debt redemption requirements and any other estimates, the preparation of which properly falls within the duties of his office; *provided*, that in the absence, failure, or disability of any official, or person, required to furnish estimates hereunder, such estimates shall be furnished by the official or employee in charge of such office, department, service, institution, or district, during such absence or disability, or such estimates may be prepared and furnished by the county board of supervisors.

2. From such estimates, the county auditor shall prepare a tabulation showing the complete expenditure program of the county, school districts and special districts for the fiscal year to which the budget is intended to apply, and the sources of revenue by which it is to be financed. Such tabulation shall set forth the estimated revenue from sources other than taxation for each office, department, service, institution, or district, for the fiscal year to which the budget is intended to apply, compared with the corresponding figures of the last completed fiscal year, the estimated unencumbered surplus, after allowing for outstanding orders, contracts or other commitments, at the close of the current fiscal year, if such estimate is presented before July first, or the actual unencumbered surplus at the close of the last completed fiscal year, if such estimate is presented after July first, and the amount proposed to be raised by taxation; the estimated expenditures for each office, department, service, institution, or district, for the fiscal year to which the budget is intended to apply, the actual expenditures for the last completed fiscal year, together with the actual expenditures that have accrued for the current fiscal year and an estimate of the expenditures that will accrue for the remainder of such current fiscal year, if such estimate is presented before July first, and the sums necessary to be provided as "general reserves," or a general reserve as hereinafter provided.

Such estimates of expenditures shall be classified to set forth the data by funds, organization units, character and objects of expenditure; the organization units may be subclassified by functions and activities at the discretion of the county board of supervisors, but the expenditures for each organization unit shall be classified under the general classes of (1) salaries and wages; (2) maintenance and operation; (3) capital outlay; (4) interest and debt redemption; and, (5) expenditures proposed to be made from bonds or other income not yet authorized.

Within the general class of "salaries and wages" each salary shall be set forth separately, together with the title or designation of the recipient; *provided and excepted*, that in counties empowered by charter to increase or decrease the number of deputies and assistants in any office an unitemized estimate may be made to cover the salaries and wages of such deputies and assistants. Wages for day labor may be given in totals by designating the general purpose or object for which the expenditure is to be made. Expenditures coming under the general classification of "maintenance and operation" shall show the major subdivisions and objects for which such expenditure is to be made. Expenditures coming under the general classification of "capital outlay" shall show the major subdivisions and objects for which such expenditure is to be made, except that expenditures for structural or nonstructural improvements shall be listed separately as to each project. Under the general class of "interest and debt redemption" shall be set forth separately each series or issue of bonds, together with its individual requirements for interest and redemption. The total amount of emergency appropriations made during the last completed fiscal year shall be set forth separately together with a statement showing the amount issued for each emergency, a list of appropriations canceled showing the amount of each and a list showing each appropriation made from the unappropriated reserves and the amount thereof.

3. The said tabulation shall be submitted by the county auditor to the clerk of the county board of supervisors on or before the thirtieth day of July of each year, at such time as the county board of supervisors may direct. Said county board of supervisors shall, upon receipt thereof, consider the same in detail, and shall on or before the tenth day of August of each year at such time as the county board of supervisors may direct, make any revisions, reductions or additions therein, that it may deem advisable, setting forth thereon such changes as have been made to make said budget conform to the judgment and conclusion of the county board of supervisors as to a proper financial program for the county for the fiscal year to which the budget is intended to apply; *provided, however*, that the estimate submitted by any official, or person, as designated herein shall not be increased or reduced until such official or person shall have first had a hearing thereon before said county board of supervisors; *it is further provided*, that in counties empowered by charter to increase or decrease the compensation and number of deputies and assistants in any office,

the county board of supervisors shall, on or before the thirtieth day of May of each year adopt a salary ordinance. The county board of supervisors may, if it deem advisable, set aside a portion of each fund to be known as "unappropriated reserves" which shall not exceed ten per cent of the total amount levied for said fund, in lieu thereof a general unappropriated reserve which shall not exceed ten per cent of the total budget exclusive of all items for bond interest and redemption. The money in such unappropriated reserves shall be available for appropriation by a four-fifth vote of the members of the county board of supervisors present at any meeting of which all members shall have had reasonable notice, to cover expenditures that have not been provided for or that may have been insufficiently provided for or for unforeseen requirements as they may arise. Said budget shall contain an amount or amounts to be known as a general reserve or "general reserves," if entries in separate fund in such sum or sums as the county board of supervisors shall deem sufficient, for the fiscal year for which the budget is intended to apply, to meet the cash requirements of any fund to which the county's credit may be legally extended for that portion of such fiscal year prior to the receipt of taxes thereon. Sums withdrawn from such "reserves" shall be returned thereto out of the respective appropriations in favor of which they were so withdrawn, and the amount thereof if found excessive, may, at the end of the fiscal year, be reduced by the county board of supervisors by applying such excess to the reduction of the tax levy. It shall be the duty of the county auditor or a deputy designated by him to attend the board's hearings on the matter contained in his tabulation and the preliminary budget, and to furnish said county board of supervisors with any additional data or information it may require. Said tabulation with such revisions, additions, or changes as have been made therein as herein provided, shall constitute the preliminary county budget for the fiscal year to which the budget is intended to apply. Said budget in which shall be set forth the auditor's tabulation and each individual estimate required as per subdivisions one and two hereof shall, on or before the tenth day of August of each year at such time as the county board of supervisors may direct, be printed or mimeographed in full in pamphlet form in quantities sufficient to supply one copy to each taxpayer requesting same, and said county board of supervisors shall on or before such date cause to be published once in a newspaper of general circulation throughout the county, notice that said budget has been prepared and is available for distribution to the taxpayers desiring a copy thereof. Such notice shall also set forth that on a date named therein, which date shall be not less than ten days subsequent to date that said budget is available to taxpayers desiring a copy thereof, the county board of supervisors will meet for the purpose of fixing the final budget designating the time and place of such meeting, and setting forth that any taxpayer may appear thereat and be heard for or against any part of said budget.

On or before the twentieth day of August of each year at such time as the county board of supervisors may direct, said board, shall meet at the time and place designated in the notice, provided in subdivision three hereof, at which time and place any taxpayer may appear and be heard for or against any part of such budget. Such hearing shall be continued from day to day until concluded, but not to exceed a total of ten days; *provided, however*, that such hearing may be concluded before the expiration of ten days if there are no requests or applications on file for hearings. The county board of supervisors shall have power to call in the official or person in charge of any office, department, service, institution, or district, at the time the estimates for their respective offices are under consideration, for examination concerning such estimates, and such official or person shall be called by said county board of supervisors upon the request of any taxpayer for questioning upon such estimates.

Upon the conclusion of such hearing but not later than the thirtieth day of August of each year at such time as the county board of supervisors may direct, said board shall by resolution, adopt the budget as so finally determined, which resolution may specify appropriations by general classes for "salaries and wages"; "maintenance and operation," and "interest and debt redemption," and shall specify by items all appropriations for "capital outlays" and shall file in their offices a copy of the completed budget. The several amounts specified in the resolution as finally enacted, shall be and become appropriated for the several offices, departments, services, institutions or districts, for the fiscal year to which the budget is intended to apply; *provided, however*, that if the budget as adopted, for any fund, special or school district, requires a tax levy greater than the legal limit as determined by the equalized valuations as shown on the assessment roll, such budget shall be decreased so as to come within the legal requirements, and this revised amount shall be the amount deemed to be appropriated for such purposes for such fiscal year.

The county board of supervisors shall, not later than the first day of September, fix the rates of county and district taxes designating the number of cents levied for each fund upon each one hundred dollars of assessed value of the county for the current fiscal year to raise the amount of the estimated expenditures as finally determined, less the total of the estimated revenues from sources other than taxation, including available surplus, and such expenditures as are to be made from bond sources, and must levy the state, county and district taxes. All taxes shall be levied, upon the taxable property in the county, as provided by law, in specific sums, and the tax for county and local purposes shall not exceed the amount specified in

the budget, after allowing for delinquency as provided by law; *provided*, that it shall not be lawful for any board of supervisors of any county in the state to levy, nor shall any tax greater than seventy-five cents on each hundred dollars (\$100) of property be levied and collected in any one year, to pay the bonded indebtedness or judgments arising therefrom, of this state, or of any county or municipality in this state.

The clerk of the county board of supervisors shall immediately forward a copy of the completed budget and tax levies to both the state department of finance and the state controller.

The estimates of expenditures, classified as required in subdivision two hereof, and as finally fixed and adopted by said county board of supervisors, shall constitute the appropriations for the county for the fiscal year to which the budget is intended to apply and the county board of supervisors and every other county official, or person, including township officers and judges of any court of record, shall be limited in the making of expenditures or the incurring of liabilities to the amount of such appropriations and classifications respectively; *provided*, that upon a resolution, formally adopted by the county board of supervisors at a regular or special meeting, and entered upon its minutes, transfers or revisions within the general classes of "salaries and wages," "maintenance and operation," and "capital outlay" may be made. Transfers between the general classes provided in subdivision two hereof, shall not be permitted, *provided* that in the case of road and bridge maintenance appropriations, any lawful transfer, deemed necessary, may be made; *and it is further provided*, that the county board of supervisors may by a four-fifths vote of the members present at any meeting of which all members have had reasonable notice cancel any appropriation in whole or in part that is not needed, and return such amount to the "unappropriated reserve" of the fund from which such appropriation was originally made.

Where any budget shall contain an expenditure program to be financed from a bond issue to be authorized thereafter, no such expenditure shall be made or obligations therefor incurred, except such preliminary expenditure as may be now provided by law, until such bonds have been duly authorized and sold. Expenditures made, liabilities incurred, or warrants issued in excess of any of the budget appropriations as originally determined, or as thereafter increased from the "unappropriated reserves" or as thereafter revised by transfer, as herein provided, shall not be a liability of the county, but the official making or incurring such expenditure shall be liable therefor personally and upon his official bond. The county board of supervisors shall approve no claim, and the county auditor shall issue no warrant for any expenditure in excess of said budget appropriations, as finally adopted or as thereafter increased from the "unappropriated reserves" or by a transfer as herein provided by said county board of supervisors, or as revised under the provisions herein except upon an order of a court of competent jurisdiction, or for an emergency, as hereinafter provided. Nothing herein contained shall be construed as affecting any authority now granted the county board of supervisors to enter into any contract for governmental services for a period exceeding one year; *provided*, that such contract shall only be considered an encumbrance of the fund from which it is to be liquidated in the amount of indebtedness accruing to June thirtieth of each fiscal year covered by such contract.

6. Upon the happening of any emergency caused by fire, flood, explosion, storm, earthquake, epidemic, riot, or insurrection, or for the immediate preservation of order or of public health, or for the restoration to a condition of usefulness of any public property, the usefulness of which has been destroyed by accident, or for the relief of a stricken community, overtaken by calamity, or the settlement of approved claims for personal injuries, or for property damages, exclusive of claims arising from the operation of any public utilities owned by the county, or to meet mandatory expenditures required by law, the county board of supervisors may upon the adoption, by a four-fifths vote of the members present at any meeting, of the time and place of which all of the members of such board shall have had reasonable notice, of a resolution stating the facts constituting the emergency and entering the same upon the minutes, make the expenditure necessary to meet such emergency.

All emergency expenditures shall be paid from any moneys on hand in the county treasury, in any fund properly chargeable with such expenditure, and the county treasurer is hereby authorized and directed to pay such warrants out of any moneys in the treasury in such fund. If, at any time, there shall be insufficient moneys on hand in the treasury to pay any of such warrants, then such warrants shall be registered, bear interest, and be called in the manner provided by law for other county warrants.

The unencumbered balance remaining in any fund at the end of the fiscal year shall be carried over to the credit of such fund for the next fiscal year, and shall be deducted from the amount finally determined as necessary to be expended by that fund, for such fiscal year; *provided, however*, that nothing in this act shall be construed as affecting the right of a county to levy, budget, and expend for highway purposes. The maximum tax provided in sections 2653 and 4011 of the Political Code in addition to such unencumbered balance; *provided*, that all balances remaining to the credit of any fund which is not to be continued in the succeeding fiscal

year, shall revert to the general fund, except as to such funds as belong to special districts and are not a part of general county finances.

All contractual services rendered or deliveries made prior to the first day of July of each fiscal year, shall be taken into account as expenditures of the year in progress.

If at the beginning of any fiscal year the appropriations necessary for the support of the various county offices, departments, services, institutions or districts for such fiscal year shall not have been made, the several amounts appropriated in the budget of the preceding year for the objects and purposes therein specified, so far as the same shall relate to the operation and maintenance expenses, shall be deemed to be reappropriated for the several objects and purposes specified in said previous year budget until the county board of supervisors shall complete the budget for the current fiscal year, the county auditor shall approve the payments necessary for the support of the various county offices, departments, services, institutions, or districts on the basis of the appropriations of the preceding fiscal year.

7. On or before the tenth day of each month, or such other date in any month as the county board of supervisors may direct, the county auditor shall submit to the county board of supervisors a statement showing such information with respect to the condition of each separate budget appropriation as the county board of supervisors may require.

8. It is hereby made the duty of the state department of finance to prescribe forms, to initiate or approve changes therein whenever in its judgment same are advisable, and to promulgate such rules, regulations and classifications as may be necessary to carry out the provisions of this act.

9. If any section, subsection, sentence, clause or phrase of this act is for any reason held to be unconstitutional, such decision shall not affect the validity of the remaining portions of this act. The Legislature hereby declares that it would have passed this act and each section, subsection, sentence, clause and phrase thereof irrespective of the fact that any one or more of the sections, subsections, sentences, clauses or phrases, be declared unconstitutional.

10. All acts and parts of acts in conflict with this act are hereby repealed.

11. Inasmuch as this act provides the method by which the appropriations for the usual current expenses of the various counties and districts of the state are to be prepared and submitted and inasmuch as this information and data must be compiled before the beginning of the next fiscal year, it is hereby declared an urgency measure and shall under the provisions of section 1 of article four of the constitution of the State of California take effect immediately."

When the cost of the proposed work exceeds two per cent of the assessed value of the property within said district according to the last equalized roll thereof, or when the board shall deem it advisable not to levy the special tax herein authorized, the order calling such election shall be valid and effectual when signed by two-thirds of the members of said sanitary board, and may so submit to said electors as one proposal the question of issuing bonds to make all said outlays, or so many of them as may be selected, or said order may submit at said election as separate questions the issuance of bonds for any of said outlays singly or in such combinations as the order may direct.

SEC. 10. A new section, to be numbered 8c, is hereby added to said act to read as follows:

Sec. 8c. Whenever the state oil and gas supervisor shall find that it is in the interest of the protection of oil or gas from unreasonable waste, it is declared to be lawful for the lessor, lessee, operator or other persons, firms and corporations owning or controlling royalty or other interests in the separate properties of the same producing or prospective oil or gas field, to enter, with the approval of the state oil and gas supervisor, into agreements for the purpose of bringing about the cooperative development and operation of all or a part or parts of such field, or for the purpose of bringing about the development or operation of all or a part or parts of such field as a unit, or for the purpose of fixing the time, location and manner of drilling and operating of wells for the production of oil or gas, or providing for the return of natural gas into the subsurface of the earth for the purpose of storage or the repressuring of an oil or gas field. SEC. 11. A new section, to be numbered 8d, is hereby added to said act, to read as follows:

Sec. 8d. Upon complaint being made to the director of natural resources by any person operating in any oil field that there is occurring or threatened an unreasonable waste of gas in any field or fields and a petition is filed with said director requesting that a hearing be held to consider whether such waste is occurring or threatened, and it appearing to the director of natural resources that there is probable cause for such complaint, he shall order the state oil and gas supervisor to hold such a hearing and to fix a time and place therefor; such a hearing may also be ordered by the said director on the application of the state oil and gas supervisor. Notice of the time and place of said hearing shall be given by publication in a newspaper printed and published in the county in which the unreasonable waste of gas is alleged to be taking place or to be threatened. Said notice shall also specify the commonly accepted name or a general description of the field or locality in which the unreasonable waste of gas is alleged to be taking place or to be threatened. The place of hearing shall be in the county or in any of the counties in which the unreasonable waste of gas is alleged to be taking place or to be threatened. Such publication shall be daily for five (5) days prior to the time of the hearing. The state oil and gas supervisor shall also send notice by mail to each lessor, lessee or operator of any oil and gas well in said field so far as the same may be known to him. If it shall appear that gas is being produced from any oil well or wells in quantities exceeding a reasonable proportion to the amount of oil produced from the same well or wells, even though it is shown that such excess gas is being used in the generation of light, heat, power or other industrial purpose and that there is sufficient other gas available for such uses from other wells in the same or other fields in which the gas produced is not in excess of the amount which bears a reasonable proportion to the amount of oil produced from such other wells and that there are adequate gas pipe line connections between such other wells and the place of utilization of such gas the state oil and gas supervisor shall hold that such excess production of gas is unreasonable waste thereof if such holding will not cause an unreasonable waste of gas in any other field. If the waste of gas be found unreasonable an order shall be made directing that such unreasonable waste of gas shall be discontinued or refrained from to the extent stated in said order. The sale or delivery of gas to another by a lessor, lessee or operator shall be no defense, excuse or reason for any lessor, lessee or operator disobeying an order of the state oil and gas supervisor directing the discontinuance or curtailment of the production of the well or wells from which said gas is being produced where such gas is being unreasonably wasted by such buyer or by the person to whom deliveries are being made. A copy of said order must be posted in a conspicuous place upon the property affected thereby, and said order shall become final five (5) days after such posting unless appealed from as provided in section 9 hereof."
